Vision Statement

To provide the frequency controlled application products for the computer, communication, optical, and automotive industry so as to become, in 2007, the most outstanding company in FCP industry judged by performance matrix and managerial capability.

Mission Statement

Through the continuous improvement and the urge for discipline and execution to enhance the productivity to interact with tier one vendors' requests by promoting company's professionalism and globalization framework.

Quality Policy

In accordance with the principles of customer orientation, problem prevention, and the pursuit of zero defect, TXC management team commits to deploy the quality policy as follows:

- (1) Technological innovation
- (2) Reliable quality
- (3) Continuous improvement
- (4) Customer satisfaction

Green Product Policy

- Based upon the most rigid legitimate rules or the requirements of our customers to set TXC's green product policy in order to be the fittest green products partner of our customer.
- Documented the environmental policy in details to promote the overall awareness of the environmental protection concept and the implementation methods.
- Through company-wide various activities to ensure the quality of our green products will meet or exceed the regulated or expected requirements.
- Continuously improving environmental management system through periodic auditing and system inspection.
- TXC's company policy, aimed at everlasting, is based upon the corner stones of green products designing, environmental protection, and customer satisfaction.

I. Business Report

After going through the impacts in 2006, TXC again advanced another major step in the quartz crystals and oscillators industry. Both our revenues and profits, two Key Performance Indexes (KPI), have made substantial growth. We hereby report on our achievements over the past year.

Our consolidated revenue in 2006 was NT\$5,206 million, an increase of 39.6% over NT\$3,730 million in the previous year, reaching the budget target by 108.3%; net profit after tax was NT\$842 million, an increase of 75.3% over NT\$480 million, reaching the budget target by 131.2%; basically each share's earning was NT\$4.13, an increase of 63.9% over NT\$2.52 in the previous year. Looking forward to 2007, we are expected to have growth and revenue above the average of the industry under a precise performance index set by the company. We hereby briefly report on our operational achievements in 2006 and operational plan for 2007 as follows:

A. Operational achievements in 2006:

1. Revenue and net profit after tax Unit: NT\$1,000

| | 2006 | 2005 | Increase(decrease)amount | Percentage increase |
|--|-----------|-----------|--------------------------|---------------------|
| Net consolidated revenue income | 5,206,204 | 3,730,181 | 1,476,023 | 39.6% |
| Consolidated operational profit | 1,502,141 | 978,721 | 523,420 | 53.5% |
| Net consolidated profit (loss) after tax | 842,241 | 480,468 | 361,773 | 75.3% |

2. Revenue income and expenditure and profitability:

| | Year | 2006 | 2005 |
|----------------------------|---|-------|-------|
| Finance Structure (%) | Liability vs asset ratio | 40.98 | 36.83 |
| | Longterm fund vs fixed asset ratio | 193 | 164 |
| Debt-paying Capability (%) | Liquidity ratio | 255 | 199 |
| | Quick ratio | 196 | 135 |
| Profitability (%) | Return on assets ratio (%) | 15.52 | 11.94 |
| | Return on shareholders equities ratio (%) | 24.75 | 18.18 |
| | Earnings per basic share (NT\$) | 4.13 | 2.52 |

3. Status of Research and Development:

The Company has scored remarkable success in sustained efforts toward miniaturization of products. Regardless of 2520 or 2016 in miniaturized product specifications, the Company has narrowed the distance with American and Japanese manufacturers in research and development. We have further strived to improve the manufacturing processes for product mass production and we are now gradually moving toward the upscale high quality and high precision product market.

4. Implementation results of other specialized projects:

- (1) Factory expansion: To meet market expansion and anticipated growth in sales, we have built a 7-storey facility in the current site in Pingzhen for production and office use. The new factory was commissioned for use in January 2007. Our production lines could be increased to a total of 14 with sustained growth of the market.
- (2) Green enterprise: The Company has scored results in promoting RoHS green products. We passed Sony's certification in February, 2006 and successively passed the relevant environmental requirements of various major customers including ASUS, MITAC and so on. We have already passed certification of green products. To further extend emphasis on this issue to the upstream and downstream and to ensure our products fully conform to the requirements, we concomitantly completed the Green Product Propaganda Handbook for promotion among our cooperative suppliers.
- (3) Quality certification: Our efforts for quality enhancement have received commendation by Intel. In March 2007, Intel awarded us the Preferred Quality Supplier, thanks to our superb quality and reputation over the years. This shows that our quality is up to international level.
- (4) Capability enhancement: To raise the Company's problem analysis capability, we launched the black belt 6-sigma training in 2006 and successively promoted various process and quality improvement and achieved allround elevation in quality improvement and problem solving.

B. Overview of Operational Plan for 2007:

1. Operational principles and important policies:

(1) Facility expansion:

In view of sustained market growth, and to effectively utilize the current available space the Company planned to substantially expand our facility in the current site in Ningbo plant in China starting in May 2007. Relevant facilities comprised of employee welfare facilities. The new facility will integrate production, office, recreation and other functions and is expected to complete by mid 2008.

(2) Yield enhancement:

The enhancement of production yield rate has long been an important factor in competition. Since the beginning of this year, the Company has strived to find out the genuine reasons for reject rate in a bid to effectively lower the reject rate. Pursuant to the production conditions in Taipei and Ningbo, we have set the objective of lowering the reject rate by over 3%.

(3) Performance evaluation:

Early this year the Company has set forth the Key Performance Index (KPI) as the basis for performance evaluation and has publicized among the various units. To this end, we plan to quantify our objectives, and further the purpose of integrating management by objectives, performance evaluation and feedback for contributions.

(4) Green enterprise:

Since July 2006, Green Enterprise has become a serious mandatory demand of the European Union for promotion. Henceforth, the promotion of green products for full compliance has become an important challenge of the Company. This year, we will focus on the Green Products Propaganda Handbook for promotion among our suppliers to ensure compliance of applicable specifications of products of the green enterprise. Simultaneously, our Ningbo plant is expected to pass Sony's audit for green products in coming May and June.

- (5) Quality enhancement:
To promote quality improvement and to strengthen colleagues' capability in problem solving, we will continue to promote the quality improvement projects in Taipei after completion of the green belt and black training, and simultaneously initiate the green belt training plan in Ningbo and further using 6-sigma as the common language for problem solving.
- (6) Key customers:
Along with the Company's capability enhancement, we have made progress in customer share-rate and in development of new customers. Under the impetus of consumer electronics and telecommunication products forecasted for this year and the robust market growth, our Company is expected to get more orders from our key customers and maintain dynamic upward growth.
- (7) Engineering capability:
The Japanese and American enterprises still dominate the crystals and oscillators industry market. To strengthen our competitiveness, it is dependent upon further enhancement of our engineering capability. Through launching of key projects by intensive training of our colleagues in a move to effectively raise our engineering capability to a higher level.
- (8) Research and development:
Targeting at product miniaturization, the Company has set up a dedicated group to plan for modification of specifications and corresponding adjustments. Through promotion of this group, we have met market expectations in the timing for delivering miniaturized products. Moreover, under the company plan for AOM products (Advanced Oscillator Module) in line with market demand and our internal capability, we have mapped out 7 major categories and 12 items of frequency products for launching this year to meet market demand for high frequency crystals and oscillators.

2. Sales forecast and basis:

Overall, since the crystals and oscillators market is still in the high growth stage, and the company's past efforts and preliminary investment have already produced definite benefits, it is estimated that following further enhancement in our engineering capability, quality assurance, debut of high end products, addition of new customers and new projects, and robust development in the telecommunication market, and mass launching of miniaturized products, as well as certification by major international customers, the Company is certain to maintain its current leading position in this industry in Taiwan and continue sustained growth and maintain its profitable conditions. Additionally, with assistance from the upstream and downstream suppliers and the concerted efforts of our colleagues, we conservatively estimate that total sales in 2007 will surpass 1.1 billion units and overall revenue and profit can be maintained above 25%.

We wish to express our thanks for your support for TXC and hope to feedback to you with our achievements scored. Changes in the industry have never stopped and competition is ever rising, our colleagues will continue to adhere to the honest attitude, foster the positive spirit and make preparations to face challenges ahead. We sincerely wish for your continued support for the years ahead.

II. Company Overview

A. Company Introduction

1. Date of the company's incorporation

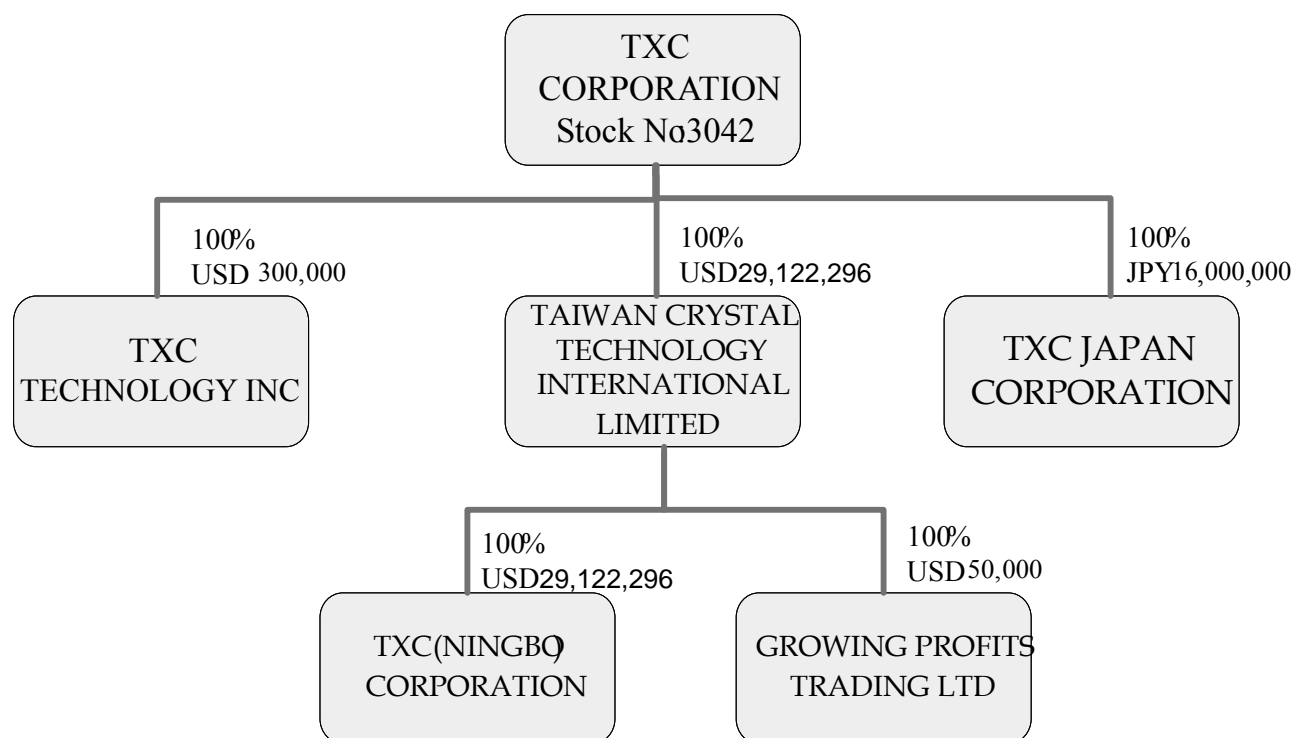

TXC Corporation is specialized in the manufacturing of frequency control components. Since our establishment in December 1983, we have strived on the research, design, manufacturing and sales of the DIP and Surface Mounted Device (SMD) crystals series products. We are specialized in manufacturing high precision, high quality of Crystals, Crystal Oscillators, Surface Accoustic Device (SAW Devices) and Timing Module etc major series of products. For many years, our goal has been to promote the customers' values. We are meeting our clients' total needs by providing clients' total solutions from various frequency control components to module in-design. We have always exceeded our clients' expectation in terms of the pricing, quality, delivery, service and product performance.

2. Company History

- 1983 Founded in Taiwan with US\$95,000 capital.
- 1984 Began production on DIP type crystals and oscillators in Peitou factory.
- 1993 ISO9002 certified.
- 1995 Winner of the 4th National Award of Small and Medium Enterprises.
- 1997 Began production of SMD type crystals and oscillators in Taoyuan factory.
- 1998 Began production of SAW devices.
Implemented Oracle ERP system.
- 1999 Established US sales office.
- 2000 Increased capital to US\$25.3 million.
- 2001 IPO'd with capital increased to US\$37 million.
- 2002 Listed in the Taiwan Stock Exchange (Code-3042)
ISO14001 certified.
Ranked among the top 10 worldwide frequency control product manufacturers.
- 2003 Began to offer value-added products (HF CXO/VCXO, OCXO, FX, etc.) for the telecom market.
Began production in new factory in Ningbo, China.
- 2004 Implemented QoS and 6-Sigma management systems.
QS9000 certified.
Established US Technology Center.
- 2005 ISO/TS16949 certified.
Ranked number 6 among the worldwide frequency control product manufacturers.
- 2006 Expanding Taoyuan factory. Adding production lines in Taiwan and China. The capacity reached to 70 million units per month. Authorized Capital: US\$57.9 million.
- 2007 A new plant is expected to be commissioned in Ping zhen in 2007, Preferred Quality Supplier awarded by Intel, anticipated facility expansion in Ningbo in May, sustained promotion of the Six Sigma program, as well as the green belt training in Ningbo plant, purchasing of an office in Shenzhen, anticipated passing of Sony GP audit by Ningbo plant by mid 2007.

B · Company Structure and the Subsidiaries

1. The chart of TXC corporation and the subsidiaries

2. The basic data of the subsidiaries

2007.03.31

| Name | Incorporated | Address | Capital | Business Nature |
|---|--------------|---|----------------|---|
| Taiwan Crystal Technology International Limited | 87.12.23 | WESTERN SAMOA | USD 29,122,296 | Investment holding |
| Growing Profits Trading Ltd | 88.03.09 | BRITISH VIRGIN ISLANDS | USD 50,000 | National trading |
| TXC (NGB) Electronic Co., Ltd. corporation | 88.03.12 | No.189, Huangshan Xi Rd., Economic & Technical Development Zone, Ningbo Zhejiang, China | USD 29,122,296 | Manufacture and sales of electronics products |
| TXC Technology Inc | 89.12.01 | 431 Lambert Road, Suite 306 Brea, California 92812, U.S.A. | USD 300,000 | Marketing activities |
| TXC Japan Corporation | 94.09.13 | Davinici-shin-yokohama Bldg., 1-3-1, Shin-yokohama, Kohoku-ku, Yokohama, 222-0033 Japan | YEN 16,000,000 | Marketing activities |

III. Corporate governance

A. Directors and Supervisors

2007.04.14

| Title | Name | Major academic (professional) experience | Current position in our company or other company |
|---|----------------|---|--|
| Chairman of the Board of Directors | Lin, Jin-Bao | MBA, West Texas A&M University, USA | President, TaiwanCrystal Industry Association |
| Vice-Chairman of the Board of Directors | Hsu, Der-Jun | Kei-Nan Institute of Technology and Business | Chairman of the Board of Director, Chan-Yu Corporation Chairman of the Board of Director, Kuan-Ya Int'l Corporation Chairman of the Board of Director, TXC Corporation |
| Director of Board | Kuo, Fa-Jin | Pei-Yun High School | - |
| Director of Board | Lin, Wan-Shing | Master in Management, Taipei Science and Technological University | Chairman of the Board of Director, Tai Shin Electronics Corporation Chairman of the Board of Director, TXC Ninpo Corp |
| Director of Board | Go, Tien-Chong | Electronics Dept, Taipei Institute | VP, ESS(USA) Asia-Pacific |
| Director of Board | Kuo, Shu-Hsin | Business Major, Taipei Business School | Vice-Chairman of the Board of Director, Chan-Yu Corporation |
| Director of Board | Kuo, Je-Hsiun | Taipei Business School | - |
| Independent Director of Board | Shen, Chi-Fong | Business Administration, Taipei Cultural University | Board of Director, Shun-Ban Technology Corp. Chairman of the Board of Director, Hon-Sheng Technology Corp (Institution Representative) Auditor, Chun-Chong Optics-Electronics (Institution Representative) |
| Independent Director of Board | Chou, Ming-Zhi | Master in Management, Taipei Science and Technological University | Chairman of the Board of Director, Ming-Yang Consulting Corp Chairman of the Board of Director, Ron-Hwa Venture Capitals Chairman of the Board of Director, Ming-Shin Venture Capitals |
| Supervisor | Yang, Min-shou | Taipei Second Professional High School | - |
| Supervisor | Yang, Du-An | History Dept, TamKung University | - |
| Independent Supervisor | Yu, Biao-Shean | Electronics Dept, Taipei Institute | - |

B. Personnel data of the general manager, vice general manager, assistant vice general manager, chief of divisions

2007.04.14

| Title | Name | Date of employment | Major academic (professional) | Other part time position with other companies |
|--|------------------|--------------------|---|---|
| General Manager | Lin, Wan-Hsing | 1989.11.11 | Master in Management, Taipei Science and Technological University | Chairman of the Board of Director, Tai-Shin Electronics Corp Chairman of the Board of Director, TXC Ninpo Corp |
| Vice General Manager of Research and Development (Chief of Technology) | Lin, Zhen-Zheng | 2002.04.01 | Ph.D., Princeton Univ, USA | - |
| Vice General Manager of Marketing and Sales(TXM China Corp President) | Chen, Shan-hsing | 2002.04.01 | Mt . San Antonio College | - |
| Vice General Manager Manufacturing Center | Shi, Shen-Hsiung | 2004.10.01 | Industrial Engineering Management, Taiwan Industrial Technology Institute | - |
| Assistant Vice General Manager of Research and Development | Lin, Shi-Bo | 2002.04.01 | MS (Physics), Univ of California, USA | - |
| Assistant Vice General Manager of Research and Development | Chang, Qi-Zhong | 2006.04.01 | Lunghwa Junior College of Technology and Commerce | - |
| Assistant Vice General Manager Quality Assurance | Kuo, Chi-Ron | 2002.04.01 | MS, Technical Management, Cheng-Chi University | - |
| Assistant Vice General Manager Procurement | Tsai, Ron-Yi-an | 2002.04.01 | Dept of Econiomics, Ba Dai Institute Japan | - |
| Assistant Vice General Manager Marketing and Sales | Kuo, Ya-Ping | 2005.06.01 | BOSTON UNIVERSITY, MBA | - |
| Chief of Finance | Hong, Gon-Wen | 2003.03.11 | Accounting and Statistics, TamShui School of Technology and Business | - |

C. Corporate governance and variations with management principles of publicly-listed companies and reasons

| Items | Operation Circumstances | Difference with governance principles of publicly-listed companies and reasons |
|--|--|--|
| <p>1. Corporate equity structure and shareholder equity</p> <p>(1) Company's way of handling shareholder recommendations and disputes.</p> <p>(2) The Company is in actual control of the namelist of the Company's major shareholders and the end controllers of the major shareholders.</p> <p>(3) The Company has set up a risk management mechanism and firewall with its affiliate enterprises.</p> | <p>(1) The Company has dedicated spokesman and surrogate spokesman and email box for handling shareholders' recommendations and disputes.</p> <p>(2) The Company regularly reports on the holdings of the major shareholders and timely in control and has maintained good relations with the major shareholders.</p> <p>(3) The Company has formulated operation regulations to govern the operation, sales and finance relations with the affiliated enterprises and has also set up a written internal control system for its subsidiaries.</p> | <p>Nil</p> |
| <p>2. Formation of the Board of Directors and its responsibility and authority</p> <p>(1) The Company has set up independent directors</p> <p>(2) Regularly evaluate the independence of the certified accountants</p> | <p>(1) 2 directors already fulfill the qualifications of independent directors and the Company has included the independent directors to be governed by the regulations to accommodate with the revised regulations of the Equities Trading Law.</p> <p>(2) Regularly evaluate the independency of the certified accountants.</p> | <p>Nil</p> |
| <p>3. Formation of Auditors and its responsibility and authority</p> <p>(1) Setup of independent auditors</p> <p>(2) Auditors' communication with company employees and shareholders.</p> | <p>(1) One auditor already fulfills the qualifications of an independent auditor.</p> <p>(2) Auditors may randomly review the Company's finance and sales execution and is authorized to invite report by the operation team.</p> | <p>Nil</p> |
| <p>4. Establish communication channels with the stakeholders.</p> | <p>The Company has set up the spokesman system, website and various channels for providing the company's latest news and communication channels, as well as setting up shareholders' mailbox.</p> | <p>Nil</p> |

| Items | Operation Circumstances | Difference with governance principles of publicly-listed companies and reasons |
|---|--|--|
| <p>5. Open information</p> <p>(1) The Company has set up website to disclose finance, sales and corporate management.</p> <p>(2) The Company has adopted other methods for disclosing company information (such as setting up an English website, appointed dedicated person responsible for collecting company information and disclosure, implement the spokesman system, and place progress of investors conference presentation on the company website, etc.)</p> | <p>(1) The Company has set up a website in simplified and traditional Chinese, English and Japanese. Website: http://www.txccorp.com to provide information on finance, sales and others and has dedicated person to maintain and update information.</p> <p>(2) The Company will hold investors conference presentation according to practical needs and place relevant information on the company website.</p> <p>(3) A dedicated person is responsible for collecting relevant information and disclosing major events; a spokesman is responsible for speaking to the public.</p> | <p>Nil</p> |
| <p>6. Operation of function committees set up by the company such as Nomination Committee and Remuneration Committee.</p> | <p>The Company has 3 auditors and one of them has qualifications of an independent auditor but no function committee is being set up.</p> | <p>In accordance with the law, Auditors Committee or Auditing Committee or various other function committees should be set up.</p> |
| <p>7. If the company has formulated corporate governance principles in accordance with the Corporate Governance Principles of the publicly-listed companies, please state its operation and difference with the corporate governance principles:</p> <p>The Company is now formulating its corporate governance principles and relevant regulations wherein the moral and behavioral standard will be reported at this shareholders' meeting.</p> | | |

| Items | Operation Circumstances | Difference with governance principles of publicly-listed companies and reasons |
|---|--|--|
| 8. Please state the system and measures and implementation of social responsibility (for instance, human rights, employee benefits, employee care, environment, community participation, social contribution, social service, investor relations, supplier relations and rights of stakeholders) : | <p>In line with the Company’s humanitarian conviction of caring for the disadvantaged, we have paid special attention to caring for the old, the young and the disabled and have annually lay out budget to feedback to society in various ways and fulfill its social responsibility. Aside from continual donations to Longtan Education Institute for the Mentally Retarded and the Syin-Lu Culture and Education Foundation, we have also made donations to education as follows:</p> <ul style="list-style-type: none"> (1) Taipei City Beitou District Yatsen Elementary School---sports installation and equipment (2) Taipei City Beitou District Wenhua Elementary School---books and arts donation (3) Sponsored sports competition for the disabled in collaboration with the Industrial and Commerical Construction Study Committee. (4) Taoyuan County Pingzhen City Xiangan Elementary School---sponsored international sports competition. (5) Taipei City Wanhua District Dali Elementary School---books donation (6) Taipei City Wanhua District Dali Elementary School—musical instruments donation and repair | |
| 9. Other important information that helps understand operation of corporate governance (for instance, further studies by directors and auditors, risk management policy and implementation of risk measurement standard, implementation of policy for protection of consumers or customers, buying of insurance policies for company directors and auditors, etc) : | <ul style="list-style-type: none"> 1) Company directors and auditors participate in finance and sales training courses to augment their professional knowledge from time to time. 2) Implementation of company’s risk management policy and risk measurement standard: nonapplicable. 3) Implementation of policy for protection of consumers and customers: nonapplicable. 4) Purchase of insurance policies for directors and auditors by the Company. | |

| Items | Operation Circumstances | Difference with governance principles of publicly-listed companies and reasons |
|-------|---|--|
| | <p>10. If the Company has self-evaluation report or evaluation report by professional institutions on corporate governance, it is necessary to state the results of self-evaluation (or outsourced evaluation), major shortcomings (or recommendations) and improvement: the Company has carried out self-evaluation in accordance with the corporate governance self-evaluation report, and the self-evaluation result is as follows: The Company has fulfilled its key index in corporate governance in four major aspects, namely, shareholders equity, internal control auditing system, operation strategy, stakeholders and social responsibility.</p> <p>In the aspect of the function of the Board of Directors, the various indexes of corporate governance have been reached except for setting up the Auditing Committee and other function committees (already elected 3 auditors).</p> <p>In the aspect of information transparency, the various indexes of corporate governance have been reached except for punishment because of delayed announcement (due to differing interpretation) about adoption by the Board of Directors in August 2006 of raising investment from surplus on an investment company in China.</p> <p>Note 1: For further studies by directors and auditors, refer to the stipulations in the Reference Examples for Promotion of Studies by Directors and Auditors of Publicly-listed Companies published by the Taiwan Stock Exchange Corporation.</p> <p>Note 2: For Stock Traders, Equity Investment Entrust Businesses, Equity Investment Consultancy and Futures Traders, it is necessary to state the implementation of risk management policy, risk measurement standard and policy for protection of consumers and customers.</p> <p>Note 3: So-called corporate governance self-evaluation report refers to the report on self-evaluation and explanation by the company on company operation and implementation in accordance with the various self-evaluation items of corporate governance.</p> | |

- (4) If the company has corporate governance rules and regulations, it is necessary to disclose its inquiry method: please go to the company website:
http://www.txc.com.tw/tw/f_investor/03_5.html
- (5) Other important information for furthering understanding of the Company should also be disclosed: go to the company website:
http://www.txc.com.tw/tw/f_investor/03.asp

note : The above based on the transactions end at 14/4/2007 ◦

C. Data on share price, net value, profit, and dividend of the past two years

| item | | year | 2005 | 2006 | 2007.03.31 end |
|-------------------------------|--|-------------------------------|---------|---------|----------------|
| Market price / share (note 1) | Highest | | 30.55 | 56.3 | 61.7 |
| | Lowest | | 13.75 | 28.6 | 51.8 |
| | Average | | 21.51 | 43.9 | 56.7 |
| Net value per share (note 2) | Before distribution | | 16.12 | 18.50 | 19.83 |
| | After distribution | | 15.07 | note | - |
| Earnings Per Share | Weight average number of shares (1000's share) | | 175,996 | 203,945 | 205,698 |
| | earnings per share (note3) | Before retroactive adjustment | 2.73 | 4.13 | 1.19 |
| | | After retroactive adjustment | 2.52 | note | - |
| Dividend/share | Cash dividend | | 1.00 | note | - |
| | Stock dividend without compensation | Stock dividend from earnings | 0.06 | note | - |
| | | Stock dividend from PICAP | - | note | - |
| | Accrued undistributed dividend (note 4) | | - | - | - |
| Analysis of rate of return | P/E (note 5) | | 7.88 | 10.63 | - |
| | P/C (note 6) | | 21.51 | note | - |
| | C/P (note 7) | | 4.65% | note | - |

- * If use profits or capital reserve for raising capital shares appropriate, then it should announce the information of the number of appropriate shares and retroactively adjust market price and cash dividend ◦
- note1 : list the highest and lowest price of the common stocks in that year, and the average market price for that year is calculated based on the transaction values and transaction amounts ◦
- note2 : Use the number of circulated shares at the end of the year as the base, then the dividend distributed determined in the coming year's stockholders' meeting ◦
- note3 : If there is any retroactive adjustment from the stock dividend without compensation, then it should list earning per share on before and after adjustment ◦
- note4 : If the equity investment has constraint that limits the undistributed dividend for that year and it is cumulated until to later profitable year. Then it should disclose the cumulative undistributed dividend up to that year ◦
- note5 : $P/E = \text{current year average share price at closing} / \text{earning per share}$ ◦
- note6 : $P/C = \text{current year average share price at closing} / \text{cash dividend per share}$ ◦
- note7 : $C/P = \text{cash dividend per share} / \text{current year average share price}$ ◦
- note8 : The financial statements of TXC Corporation were audited or view or certified by CPA.
- note9 : Up to 2007.03.31 , The retain earnings of 2006 has not yet admitted by the stockholders' meeting.

D. Company's dividend policy and its current implementation status

1. Dividend policy as defined in the articles of incorporation :

Our company, at the time being, is still in its growth stage. In considering the company's long term financial plan as well as to satisfy shareholders' cash income needs, therefore the method of profit distribution, after the current year legal reserve, and special reserve, will abide by this Chapter, title 19: profit distribution. The cash dividend out of the total dividend the shareholder received cannot be less than 20% of the sum of the cash dividend and stock dividend.

2.Suggested dividend appropriate in this shareholders' meeting :

Profit distribution for 2006

unit : NT\$

| Item | amount | |
|---|--------------|---------------|
| | Sum | total |
| Beginning period undistributed profits | | 136,479,052 |
| plus : Available distributed profit for current year | | |
| Net profit after tax for this year | 842,240,452 | |
| minus : | | |
| Appropriate legal reserve (10%) | (84,224,045) | |
| Profits available for distribution | | 894,495,459 |
| Items of distribution : | | |
| Shareholder bonus—transfer raising capital share appropriate (\$1 per share) | 206,032,280 | |
| Shareholder bonus—cash (\$2 per share) | 412,064,564 | |
| Employee bonus—transfer raising capital share appropriate | 35,119,140 | |
| Employee bonus—cash | 35,119,140 | |
| Directors and supervisor remuneration (2%)—cash | 14,047,655 | |
| total | | (702,382,779) |
| End period of undistributed profits | | 192,112,680 |

E. Employee bonus and rewards for directors and auditors

1. The principle of surplus distribution in accordance with company regulations:

Surplus in this year's final account should first be used to pay tax and to make up for past deficits, then followed by allocation of 10% as legal reserve or appropriate or divert the special surplus reserve in accordance with applicable laws and regulations, and after retaining an appropriate amount in view of the operation status, the balance unallocated surplus should be allocated by percentages as follows:

- (1) 3%~15% for employee bonus.
- (2) 2% as reward for directors and auditors.
- (3) The total amount of surplus after deducting employee bonus and reward for directors and auditors for the year shall be for shareholders bonus.

Other objects for employee bonus in stock should comprise of employees of affiliated subsidiaries with certain qualifications and the Board of Directors should be authorized to formulate relevant regulations.

2 Proposal by the Board of Directors for surplus distribution in 2006:

As proposed by the Board of Directors on 26 April, 2007 surplus distribution for employee bonus and reward for directors and auditors are as follows:

- (1) Propose to allocate employee cash bonus amounting to NT\$35,119,140, bonus in stock NT\$35,119,140 and cash reward for directors and auditors amounting to NT\$14,047,655.
- (2) Propose to allocate employee stock dividend in shares and the surplus recapitulation ratio of : 3,511,914 shares, 14.6%.
- (3) Propose to allocate employee bonus and reward for directors and auditors in accordance with par value setting earnings per share at: NT\$3.72.
- (4) Propose to set earnings per share at NT\$2.99 according to closing stock price of NT\$52.10 on 95.12.30 after allocation of employee bonus and reward for directors and auditors.

3. The Company Board of Directors on surplus allocation in 2005:

The actual surplus allocation of employee bonus and reward for directors and auditors according to resolution adopted by the shareholders meeting on 15 June, 2006.

- (1) Actual employee bonus dividend and reward for directors and auditors in cash respectively: NT\$34,347,060 and NT\$6,869,410.
- (2) No difference between the proposed allocation adopted by the Board of Directors and the resolution by shareholders meeting.

V、Business Information

A、Business Contents

1、Business Scope

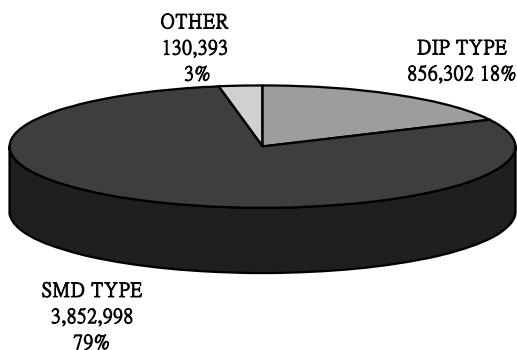

(1). The Major Business Contents

TXC Corporation is specialized in the manufacturing of frequency control components. Since our establishment in December 1983, we have strived on the research, design, manufacturing and sales of the DIP and Surface Mounted Device (SMD) crystals series products. We are specialized in manufacturing high precision, high quality of Crystals, Crystal Oscillators, Surface Accoustic Device (SAW Devices) and Timing Module etc major series of products. For many years, our goal has been to promote the customers' values. We are meeting our total client's needs by providing clients' total solutions from various frequency control components to module in-design. We have always exceeded our clients' expectation in terms of the pricing, quality, delivery, service and the product's performance. In recent years, TXC Corp is strengthening on the automobiles industry and SONET market and their products applications. We are steady engaging the markets and are expecting the challenge of a new stage.

(2). Business Proportions

(unit NT\$ 1000's)

2006 (NTD4,839,693 thousand dollars)

2005 (NTD3,438,735 thousand dollars)

(3). Company's current products

| Product type | Type | Product description | Product picture |
|---------------------|---|---|---|
| Crystals | DIP | HC-49U / HC49S / HC-49S SMD |  |
| | Glass Sealed Crystal | 8*4.5mm / 5*3.2mm / 3*2.5mm |  |
| | Seam Sealed Crystal | 7*5mm / 6*3.5mm / 5*3.2mm / 3.2*2.5mm / 2.5*2mm |  |
| | Tuning Fork Type | 8.3*3.5mm / 6.9*1.4mm / 4.1*1.5mm |  |
| Crystal Oscillators | CXO | 14.4*9.5mm / 7*5mm / 5*3.2mm / 3.2*2.5mm / 2.5*2mm |  |
| | VCXO | 14.4*9.5mm / 7*5mm | |
| | TCXO | 5*3.2mm / 3.2*2.5mm | |
| | OCXO | 36*27mm / 25.5*22mm | |
| SAW Devices | | 5*5mm / 3.8*3.8mm / 3*3mm |  |
| Timing Module | | 25.4*20.3mm / 20*20mm |  |
| Automotive | DIP / Glass Seaded Crystal / Seam Sealed Crystal | HC49S / HC-49S SMD / 8*4.5mm / 6*3.5mm / 5*3.2mm |  |

(4). Scheduled new products development

Our company research & development will continue to invest more resources in the new products of the high-end niche market, as well as in the basic research. In facing of domestic as well as other regional competitions and fierce catching up of the IT products, our company has our research & development in the following strategies:

(a). Slim down SMD product development

After several design experience of the scale-down product, our company has greatly

narrow the gap with these major Japanese companies in the design capabilities and mass production of these SMD Crystal Unit and Crystal Oscillator. Our company is able to place 2.0 x 1.6 x 0.7mm SMD Crystal Unit and Crystal Oscillator into mass production in Q2 2007; and trial production of 1.6 x 1.0 x 0.7mm crystal components in Q1, 2008. And, to meet the market needs, mass production will begin in Q2, 2008. From 2004 to the end of 2006, in the three years our company has improved the SMD components design from 5.0 x 3.2 x 1.0mm to 2.0 x 1.6 x 0.7mm, and the volume of this product has cut down by 7 times. In addition to the continuous product modularized, we are also making strategy advance in slim-down manufacturing technology and the development of the manufacturing equipments. At the end of 2006, our company has trial production of the 2.5 x 2.0 x 0.7 mm components with our own designed manufacturing process and equipments. We are currently at the second phase of developing the manufacturing process and equipments. It will be used at the beginning of 2007 for the 2.0 x 1.6 x 0.7mm products. Eventually it will lead to a better product quality and lower our costs.

(b).Product development for vehicles use

The TS-16949 preliminary product development quality operating system introduced in 2006 has been formally certified and company product design time has been shortened and design cost drastically reduced, thereby providing speedier and more complete service to meet customer demand. The Company has scored substantial results in the frequency control components for the front vehicle market of application manufacturers in 2005 and 2006. A number of manufacturers has requested for samples and audited the Company's quality system with substantial results. Particularly in the TPMS system, a number of special testing technology has been successfully completed and already submitted products for the pre-vehicle and post-vehicle manufacturers for piloting production and mass production testing and is expected to contribute to raising revenue. We will foster more direct contact with the world's top 5 automobile manufacturers in 2007 and 2008 so as to enhance our competitiveness in the post vehicle market.

(c).Development of high-end oscillators and module products

The Company has made veritable contribution to the niche market of high frequency and high value-added high precision frequency control components in 2006. Moreover, we are leading the industry in Taiwan by ushering in mass production in the second quarter of 2007 for the miniaturized TCXO for use in GPS. From 2006 to 2009, we will carry out deeper and more extensive product development, for instance, TCXO for use in some special telecommunication equipment, the VCXO for use in the optical fiber telecommunication module, the HFF VCXO for use in high frequency telecommunication and the various high precision frequency control modules (Frequency Translator, CS, CDR) for use in infrastructure. Such high-end module niche products are technology-oriented targeting at the high output value and high profit product market with comparatively lower investment in production equipment.

(d). In the future, development of application end products using the testing system with quartz frequency components for basic development is our strategy of winning our competitors by developing other products. The testing technology of crystals and oscillators is not only for producing frequency components, but also for further integrating chemical thin film technology, MEMS technology and signal capture technology, and quartz frequency control components into a complete system. The quartz component tester has great potential and market for applications in gas detection, pressure detection and acceleration detection. Presently, only two of the top 5 frequency control components in the world have the capability in developing this tester and has generated substantial revenue. The Company will build up our manpower and technology in this aspect and plan to enter this tester market in 2009.

(e). Basic Research

Our company will continue the basic research and design of the quartz crystal and other major materials. In order to achieve the top three of frequency controlled components provider, we will need to invest more in the hardware, software and human resources. We will be able to see a gradually increase in the research publications, and the patents applications. With better basic research abilities, we can speed the new products entry into the market, and a better position in negotiation of the supply chain strategies.

The schedule is as below:

| | 2007 | 2008 | 2009 |
|-------------------------|-------|-------|------|
| SMD Crystal | 2016 | | 1610 |
| SMD CXO | 2520 | | 2016 |
| Automotive Crystal | 6035 | 5032 | 3225 |
| SMD Tuning Fork | 4115 | 3215 | |
| SMD HF CXO (PECL/LVDS) | 5032 | 3225 | |
| SMD VCXO (CMOS) | 5032 | 3225 | |
| SMD HF VCXO (PECL/LVDS) | 7050 | 5032 | 3225 |
| Frequency Translator | 22x25 | | 7050 |
| SMD TCXO | 3225 | 2520 | |
| Stratum 3 TCXO | | 29x25 | 14x9 |
| CS / CDR | | | TBD |

2、The Industry

(1). Current industry status and development

The current domestic quartz industries are mainly for producing components such as crystals, crystal oscillators, and crystal filters. The basic manufacturing process of making crystals

starts from cutting the quartz, and then after grinding and polish to the desired sizes; followed by depositing thin metal film electrodes on its surface under the vacuum, and subsequently, it is connected with conduct wires; afterward it is packaged. In addition, by assembling and packaging the crystal components with IC oscillators then it will result the crystal oscillators. Assembling and packaging the crystal components and capacitors, wires, and resistors then it will be the crystal filters.

Earlier quartz crystal has been used widely in the aerospace and consumer industries and it is considered to be the low end applications. With the growth of wireless communication, and other optic-electronics applications such as digital cameras and automobile sensors; which have led the quartz to the high end applications. With the continuous growth of the consumer market, we can categorize quartz components into three application areas: “communications”, “information technology”, and “consumers and others”. Roughly estimates, quartz components have its use in 45% of the communications, 30% in communication technology, and 25% in consumers’ electronics and others. As for the mobile phone market, we have seen the consumers are actively seeking “functional” mobile phone upgrades such as usage of mobile phone for digital camera, and color monitor. With the extend use of the information technology we have seen more applications such as in the auto industry such as the automobile frequency components, automobile remote keyless entry system, electronic TC system, automobile guidance system, tire pressure auto-detection system, safety air bag, constant temperature control system etc. As the market overall, the market demand of crystal components in the next few years will be rather stable.

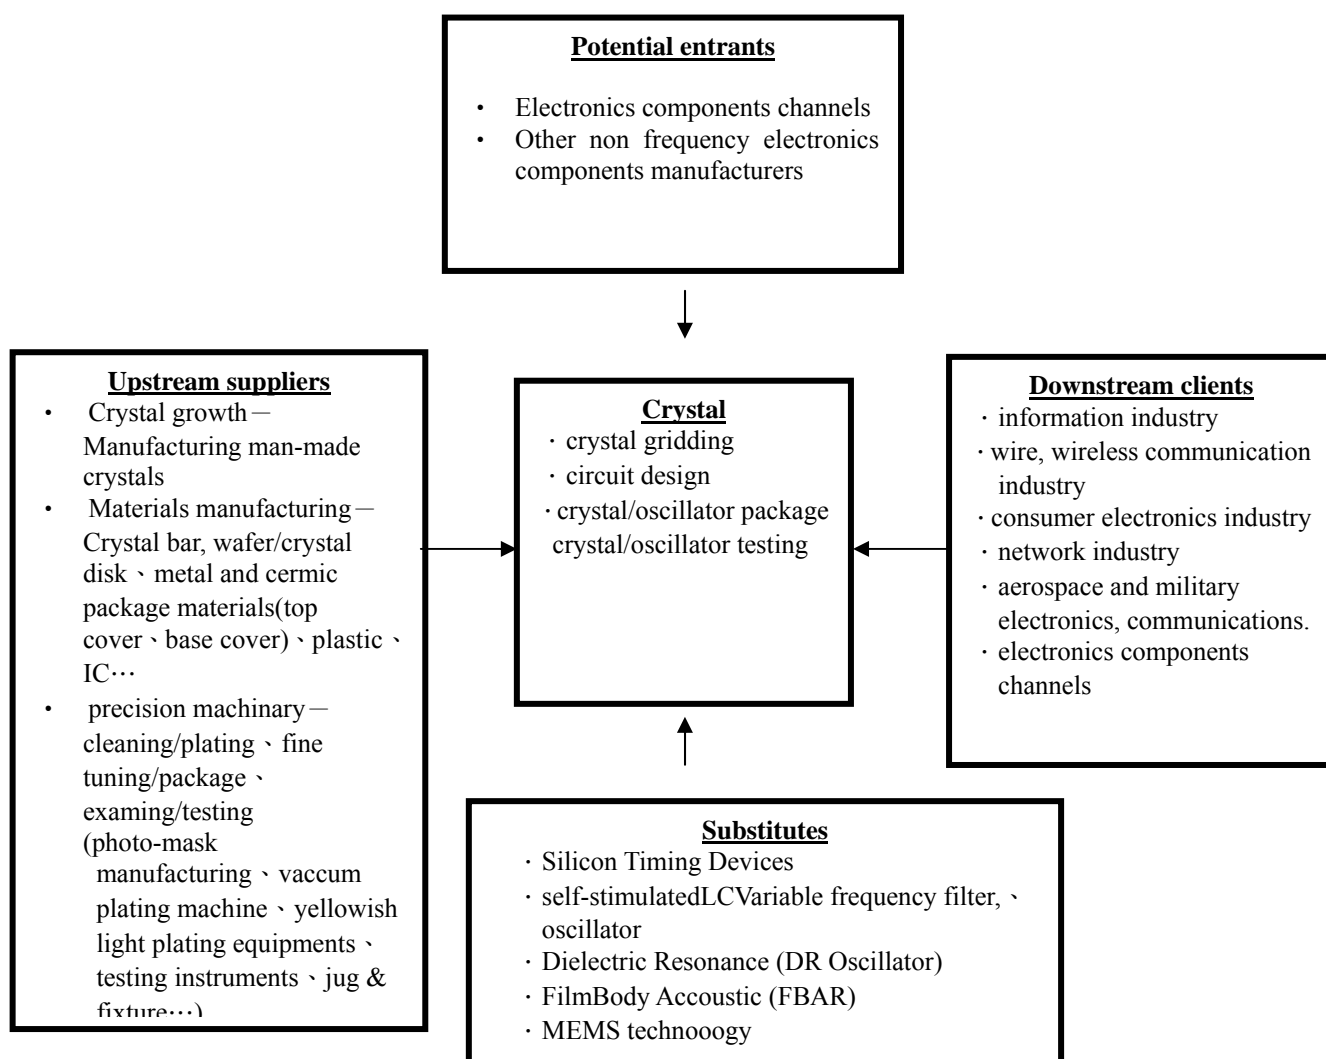

When you comparing the three crystal technologies: frequency, precision, and size dimension you can see that the European and US manufacturers are strong in the frequencies development. It was because of their development of the wireless technology during World War II that it gives them an advantage in the design and development; but production efficiency is lower. Japan manufacturers are the technology leaders and they are excellent in the precision and the scale size of the products. They have the advantages of products improvement, and can further to make it in mass production and automatic production. To the Taiwanese manufacturers, most of them are buying the material & know-how, machinery equipments, or purchasing the manufacturing process of which usually lead to a faster time in marketing the product. But recently, the manufacturers have improved their manufacturing process, and the manufacturing equipments; also the learning of the manufacturing process further improves it. Mainland’s manufacturers produce more than 1.3 billion units annually. But 80% of the products are low end and for export purpose. But China’s market needs 1.3 to 1.5 billion units and their domestic products can only meet the 20% demand. Hence Chinese manufacturers have yet to meet their huge domestic needs. In recent years Chinese manufacturers are aggressively to promote their technology abilities and to advance to the middle and high end. Below table is a comparison of advantages/disadvantages of competitions from the major producers.

| Key technology | European, USA manufactures | Japanese manufactures | Taiwanese manufactures | China manufactures |
|----------------|----------------------------|-----------------------|------------------------|--------------------|
| Frequency | high | High | High-middle | Middle-low |
| Precision | high | Very high | High-middle | Middle-low |
| Sizes | High-middle | High | High-middle | Middle-low |

Currently, in Taiwan the major crystal manufacturers are TXC Corp, Siward Crystal Technology, Harmony Electronics, Tai-Saw Technology, and EChina Technology. TXC Corp has the highest market share and Harmony Electronics is next.

(2). Market relationship of up, middle, and down stream companies

Crystal components are our major product and it is also the basic electronics parts. Our upstream industries include crystal growth, material manufacturing, and precision machinery. The downstream applications include information technology, wire and wireless communications, consumer electronics, and network products etc. The relationship between the up, middle, and downstream manufacturers is given in the below diagram:

Crystal products are important components in the electronics products. To sponsor the future 3C growth and trend, the future product style, its size, and the precision will have the following trend :

(3). Production trend :

(a). Slim down and usage of SMD

In terms of the technology aspect, we have achieved the slim down level for use the single crystal IC, crystal design & manufacturing, and packaging & testing etc. For example take the case of SMD quartz crystal, its dimension has downsized from 11.8×5.5mm、8×4.5mm、7×5mm to 6×3.5mm、5×3.2mm、and further to 4×2.5mm、3×2.5mm、2.5×2.0mm、even to the dimension of 2.0*1.6mm；its height has also improved from 2mm、1.8mm、1.5mm、1.2mm to 1mm、0.9mm。By the effective SMD scale down improvement, we are also toning with the SMT production from our downstream clients.

(b). High frequency、high frequency modularized、high precision：

Because the low frequency has more interference and there are more saturated with application in the low frequency ranges, the development of high frequency has become more important。In the communication industries, the cellular phones、wireless LAN、Fiber Channel、Gigabit Ethernet、simultaneous optics network (SONET)、and simultaneous digital system (SDH)、are developing in the direction of high frequency, and high speed; and also a higher demand of higher precision. Also the developing tendency of modularized components gives clients' simplified and easy tasks in their applications and design。

The products are as the below list:

| No | Projects | PKG (mm) | Type | Features |
|----|--------------------------------------|------------------|--------------|--------------------------------------|
| 1 | High Frequency CXO (above 100MHz) | 7x5 | LVPECL | High Freq. Low Noise |
| | | | LVDS | |
| 2 | High Frequency VCXO (above 50MHz) | 7x5 | CMOS | High Freq. Low Noise High Pull |
| | | | LVPECL | |
| | | | LVDS | |
| 3 | High Frequency VCXO (below 50MHz) | 5x3.2 3.2x2.5 | CMOS | Low Noise High Pull |
| 4 | 3225 TCXO | 3.2x2.5 | Clipped Sine | High Stability |
| 5 | 32.768KHz CXO (TF) | 5x3.2 | CMOS | High Stability |
| 6 | Precise CXO | 7x5 5x3.2 | CMOS | High Stability |
| 7 | Frequency Translator (FX) | 25x20 | LVPECL | Low Noise |
| 8 | Stratum 3 TCXO | 7x5 | Clipped Sine | Ultra High Stability |
| 9 | 622MHz VCSO | 7x5 | LVPECL | High Freq. Low Noise High Pull |

(4). Competitions

For quite some time Taiwan electronics industry usually take the OEM fashion to function as a supplier to world's largest electronics and information technology companies. Applying Taiwan's capital, technical skills, labor or other market unique advantages that takes the advantages of "global labor division"、"regional labor division" to achieve the vertical integration purpose。With the advance of Taiwanese electronics manufacturer's technical level, their business operatios have transformed from the parts assembled in the early days, to the OEM, and even promoted to the ODM scale. In order to gain a more added value, many Taiwan electronics companies, reposition their value chain locations, and have gradually extended themselves from manufacturing to product R&D, design and even further to sales and

marketing, post-sale and brand management; and amid the global work divisions, have stance in a unique place . The major global companies with their procurement arranging, are team with Taiwan electronics companies in value creations; and themselves would be able to intend more on their brand and sales management. This ends up in a win-win situation for both parties ◦

With Taiwanese electronics industry forms in the nature cluster groups, and it thus has a demand of 25% of the global crystal component product. But Taiwanese manufactures can only produce no more than the 10% of total global production, and this domestic market would provide growing space for Taiwanese companies. But the crystal component industries are in the border of oligopoly competition since the five largest manufacturers in the world have a total combination of production of 65% and more. This illustrates the great differences of the manufacturers in this industry, and this can be said it is a oligopoly competition market. But because the wide applications of the products, each manufacturer emphasizes its own product and the market. The lower end, and mature market has a stronger tendency in cutting price to competition. This results a very strong competition market ◦

In the global crystal component industry, Japan is still the largest producer and it has about 65% of the worldwide productions. Our domestic competitors are SiWard Crystal Corporation, EChina Technology, Harmony Electronics and Tai-Saw Technology. Each corporation differentiates by specializing in different products and market. Our company has the highest market share which demonstrates our leading role in the crystal component industry ◦

3. Technology and Recent Research and Development

(1) Ratio of R&D expense in net sales during recent years up to 2007.03.31

| | units : NT\$ 1,000's , % | | |
|-----------------------------------|--------------------------|-----------|------------|
| Year | 2005 | 2006 | 2007.03.31 |
| Net Sales | 3,438,735 | 4,839,693 | 1,270,301 |
| Cost for Research and Development | 114,374 | 120,920 | 42,175 |
| R&D cost/net operating Cost(%) | 3.33 | 2.50 | 3.32 |

(2). Research and Development Results

| | |
|-----------------------------|---|
| Products development | <ol style="list-style-type: none"> 1. SMD Seam Crystals 2.5 × 2.0 mm 24~54 MHz for handset application 2. SMD Tuning Fork 4.1 x 1.5 mm 32.768 KHz for real time clock 3. SMD Seam CXO 3.2 × 2.5 mm 12~48 MHz for media, WLAN, digital camera, blue-tooth and other applications. 4. SMD Seam CXO 2.5 x 2.0 mm 4~54 MHz for media, WLAN, digital camera, Bluetooth applications. 5. SMD High Fundamental Frequency LVDS/LVPECL CXO 7.0 × 5.0 mm 155~187 MHz for Networking application 6. SMD Programmable CXO 7.0 × 5.0 mm for variable applications. 7. SMD 3.2 x 2.5 mm TCXO for GPS application 8. SMD VCSO 7.0 × 5.0 mm dual frequency for Networking application |
|-----------------------------|---|

| | |
|-----------------------------------|---|
| | 9. SMD SAW Resonator 368MHz |
| Patents and Academic publications | <ol style="list-style-type: none"> 1. “piezoelectric effect crystal oscillator component electrode“ is patented in Taiwan, Japan and U.S.A. 2. “ Packing Structure and Component Installation Method for Oscillator “ patent in Taiwan and USA 2. “Development of Voltage-Controlled SAW Oscillator (VCSO) for Fiber-Optic Communication System,” 2005 Communication Electronic Technology and Application (CETA 2005) College of Marine Engineering, September 2005, National Kaohsiung Marine University. 3. S.Y. Pao, M.K. Chao, C.H. Chiu, C.S. Lam, and P.Z. Chang, “Beveling AT-cut Quartz Resonator Design by an Efficient Numerical Method,” 2005 Proc. IEEE Frequency Control Symposium, pp.1848-1851, 2005. |

4. Long and short term sales and marketing plan

(1). Short term Development Plan

(a). Sales and Marketing Strategy :

- Affirm the IT industry , take on the communication industry , and engage the automobile industry .
- From the major domestic clients out of the main industries , then slot in the global Tier 1 clients , and eventually align with global major companies .
- Target the industry and clients , start from the Deign in, to secure the business opportunities and time and to promote the profitability .
- In addition to the continuous strengthening the sales activities in North America and China, more aggressively in expanding market territories in Japan, Kprea, and Europe. .
- Strengthening the Marketing PM functions , that to fulfill the pre-sale operations and planning .
- Construct a complete global Logisticnetwork, that would meet clients’ delivery on time needs, and also provides clients’ technical integration services in real time basis .
- An overall strategy to improve the revenue and enhance profitability, Staretygy and policy need to be adjust or change with the shifting of external factors .

(b). Manufacturing Strategy :

- Time to Volume , Time to Market. Orders taking and planned production policy run in parallel , delivery on time , and have the appropriate amounts of products in stock .
- Taiwan plant is mainly used to produce high end products; whereas NGB, China plant is more tailored to the mature and highly competitive products. This different approach is in consitent with our overall maintaining or promoting our competitiveness .
- Seeking for high operating efficiency of our equipments, and challenging and also fulfill our projected production rate. Actively to improve as well as maintaining our stability and growth .
- Strictly follow company’s manufacturing policy to achieve the ”Zero Defect” target , based on the believe that quality comes from the manufacturing, the entire unit needs to

- carry out thoroughly ◦
- Collaborate the Outsourcing policy , helping and assisting with all of our efforts to our outsourcing partners that their products meet the quality requirements and the market needs. This would enable us in projecting an overall production rate ◦
- Targeting the "ideal cost" , by using the "comparing cost" as the base , gradually improve monthly until the cost becomes reasonable ◦
- An effective operation, management; and well organized in driving the business projects ◦

(c). Quality Assurance Strategy :

- The manufacturing specification needs to become systematic , control of the DCC and its actual implementation ◦
- Adhere the ISO 9001 , ISO 14000 , QS 9000 , TS16949 systems as well as monitoring and improving our major clients' quality system, pursuing and actual implementations ◦
- Executing KPI audit, supervising, and improvement of all the divisions. Place more emphasis on the manufacturing unit, such as Practical environment , SOP manufacturing process , CPK , SPC of the end products etc. The primary responsibility would be monitoring the product quality ◦
- Drive the TQM and 6-Sigma concept , promote the overall clients' satisfaction level ◦
- Strengthening QA department's engineering ability. They would have the technical ability to handle these IPQC, OQC inquires. They will also be effectively in handling the needed service to vendors, manufacturing units, and clients as well ◦
- To our suppliers and outsourcing partners we need to further raise their quality requirements and management level. Looking for the SCM system implementation , and further in link up with global companies ◦
- Managing and executing the instruments calibrations of Taiwan and China's plants. Fulfill the demand of quality certificate from our important client Golden Sample; and this would reduce any disagreement and waste of the resources ◦

(d). Product R&D Strategy :

- According to the marketing & sales strategy and needs; we need to map the direction of the product that it should go. We will aim the product's specifications meet the clients' needs.
- According to the new specifications from the clients, our RD or engineering can provide the product within the scheduled time frame that will help us to win the business opportunity ◦
- According to our business strategy and planning; our RD will fix on the product development or work as team with other company in the industry that we could bring the new product to the market ◦
- Execute the scheduled progress RD project management , effectively monitoring and managing the RD development that to shorten the RD time ◦
- Continuously to strengthen the RD staff, conduct the effective training and upgrade the overall professional attribute ◦
- Have an effective RD management practice, reasonable reward system, and to motivate the group's efficiency and attitude ◦

(2). Long term development

- Assertively developing the applications of Fiber Channel , Gigabit Ethernet ,

SDH-SONET(synchronous fiber optics transmission) and frequency controlled component used in terminal communications ◦

- Actively developing frequency controlled component used in automobile accessories; and the primary goal would be their converge to the strict high quality requirements ◦
- Continuously expanding sales and services offices. Need to strengthen the marketing & sales phase in Europe and North America; and to add the marketing & sales centers in South China (ShenZhen), East China (Soochow, Shanghai), and North China (Beijing). These newly added sales centers in China will provide the market needs and service for the Taiwanese business and overseas companies that are investing manufacturing in China. It can also expand the China market share and setup as a foundation for future expansion in China. Eventually the above approach will help us to position into the top five worldwide of the crystal components manufacturers ◦
- Continuously seeking alliance that would provide good joint opportunities, and this would strengthen our overall competitiveness ◦

B 、 Marketing & Sales Situation

1 、 Market Analysis

(1). Market for our major products

The product trend is toward to small and light . The products that use the SMD crystal will have a higher percentage than others. In the future, Asia still is the major OEM center, and the products from Asia are still very high. TXC would still need to work hard on the market expansion in America and Europe ◦

Regional sales distribution of our major products in the past two years :

unit: Thousand NT\$

| Region year | 2005 | | 2006 | |
|----------------|------------|--------|------------|--------|
| | \$ dollars | % | \$ dollars | % |
| America | 155,400 | 4.52 | 154,117 | 3.18 |
| Europe | 60,950 | 1.77 | 80,445 | 1.66 |
| Asia | 2,078,080 | 60.43 | 3,162,803 | 65.35 |
| Domestic | 1,144,305 | 33.28 | 1,442,328 | 29.80 |
| Total | 3,438,735 | 100.00 | 4,839,693 | 100.00 |

(2). Market share

unit : million USD\$

Modified from CS&A

(3). Market future demand and supply condition, and its growth potential

(A). On industry side

TIC Consulting has used past sales of crystals and oscillators to forecast the future market. It noticed stable growth both in demand and sales amount since 2004. The total global demand for crystals and oscillators in 2006 topped 12000,000,000 units and the average demand growth is 11%. According to the TIC Consulting forecast, total global sales revenue for crystals and oscillators in 2009 will top US\$4.2 billion, or an 8% composite growth rate.

2004-2010 Worldwide Crystals & Oscillators Shipment Volume
(Source: TIC Consulting)

2004-2010 Worldwide Crystals & Oscillators Shipment Revenue
(Source: TIC Consulting)

(B) Market Side

In terms of application, crystals oscillators can be divided into telecommunication, information, and consumer and others. Hereby we analyze the application market below:

(a). Mobile phone market:

Aside from traditional transmission of sound and text, the mobile phone now also transmits music, pictures, animation, photos and with various multimedia and recreational functions. Presently, the mobile phone has almost become a platform integrating all the media. Future mobile communication will use the mobile phone as the hardware to provide music, TV, internet, GPS, audio, office, and game and other contents and services, and toward customized solutions. According to the observation and forecast by Topology Research Institute, the mobile phone market will continue to grow steadily at a growth rate of approximately 14% in the next 3 years.

2004-2009 Worldwide Mobile Shipment Volume
(Source: Topology Research Institute)

(b). Bluetooth Market

Bluetooth is a unified specification of close distance wireless technology formulated by

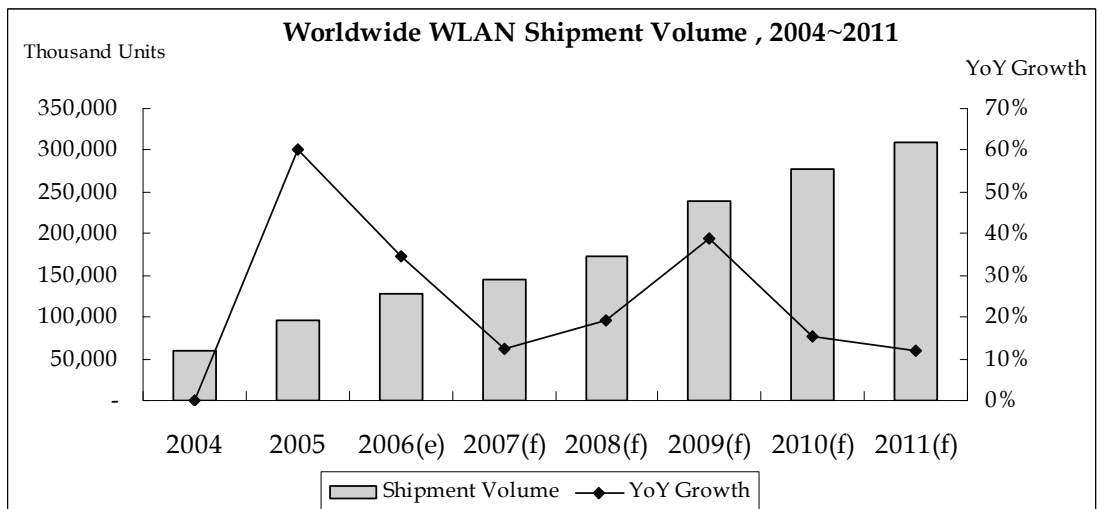

five companies in 1998, namely, Nokia, Ericsson, Intel, IBM, and Toshiba. It has now become the design specification for mobile phone, PDA and other telecommunication equipment. Over 70% of the applications are in mobile phone with the remaining 30% shared by Head Set, PC, PDA and game, etc. Fuji Chimera Research Institute points out, the bluetooth market saw explosive growth in the past 2 years but is expected to slow down in demand in 2008 but the average growth rate is estimated at approximately 13%.

2004-2011 Worldwide BT Shipment Volume
(Source: Fuji Chimera Research Institute)

(c). Wireless LAN Market

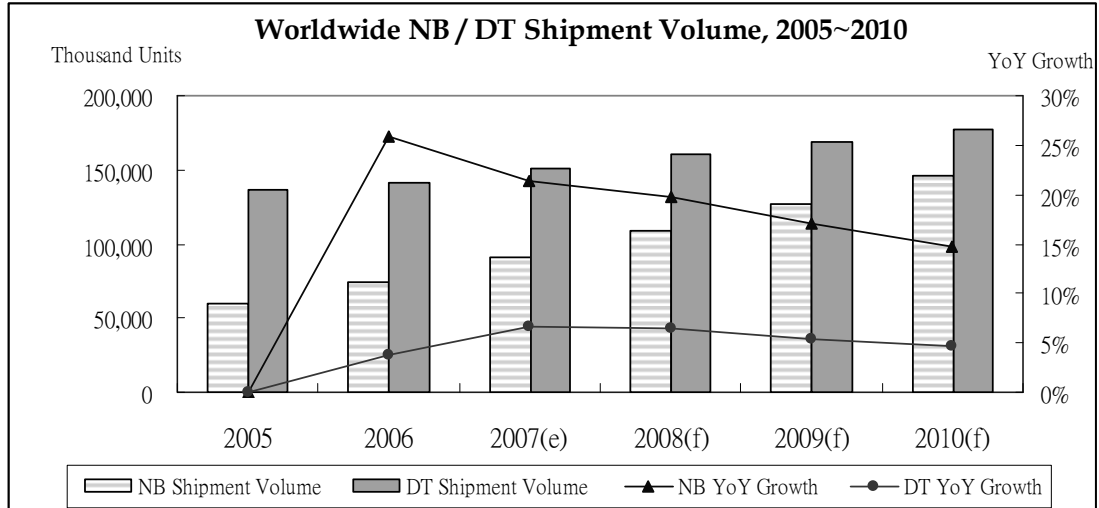

Wireless LAN refers to the LAN system utilizing wireless telecommunication for data transmission, and particularly refers to the IEEE802.11 specifications being mainly used in computer, mobile phone and PDA. Presently, notebook computer bundled with wireless LAN has become a standard. It is expected that this will extend to home LAN and gain a chunk of the home appliance market. Marketing of the game machine with wireless telecommunication function such as the Nintendo DS further expanded the potential of wireless LAN. Currently, over 55% of wireless LAN is being applied to PC while game machine and Access Point captured respectively 20% of the market. Fuji Chimera Research Institute optimistically forecasts an annual growth rate of 20% in the WLAN market in the coming 5 years.

2004-2011 Worldwide WLAN Shipment Volume
(Source: Fuji Chimera Research Institute)

(d). PC Market

PC has become increasingly popular and has become a daily necessity. But the growth rate is declining in recent years; but the debut of Windows Vista in 2007 is expected to drive the market and trigger a wave of replacement. In hardware, the Intel Santa Rosa platform is another driving force for the growth of PC. It is estimated that worldwide NB and DT shipment volumes in 2007 are respectively 90 million and 150 million units, with an annual growth rate of 22% and 7% respectively.

2005-2010 Worldwide NB/DT Shipment Volume
(Source: IDC , Dec. 2006)

(e). MP3/PMP Market

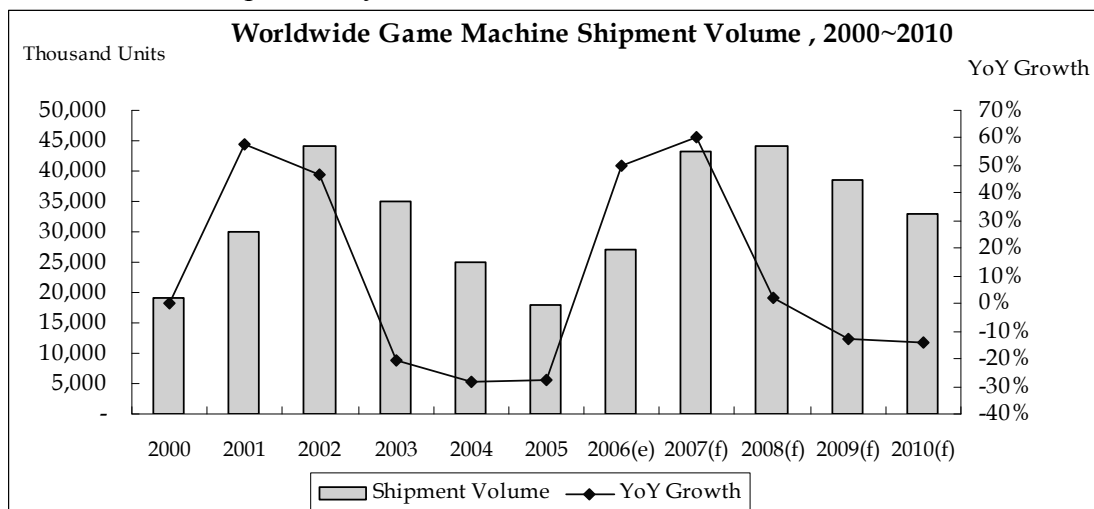

The MP3 (MPEG-1 Audio Layer 3) and PMP (Portable Media Player) market is growing rapidly and has become the index industry of consumer electronics. A study by CES (Consumer Electronics Association) in 2006 shows that they have become the most hoped for gift among the American consumers. There are a variety of brands and functions on the market formerly mainly for MP3 music playing. Driven by mobile video, image playing is gradually becoming the norm. Thus, developing toward PMP is an expected trend for the product. ISuppli estimates that the entire MP3/PMP worldwide shipment volume is approximately 216 million units in 2007 with an output value of approximately US\$20.6 billion; and will top 264 million units by 2010 in worldwide shipment, with PMP products surpassing Music-only device, and will represent over 60% of the market.

2006-2010 Worldwide MP3 / PMP Shipment Volume
(Source:iSuppli; Topology Research Institute, Apr. 2007)

(f). Game Machine

By the end of 2006, the three major game machine suppliers Nintendo, Sony and Microsoft officially launched battles in next generation game machines with emphasis on high specification hardware performance, high picture quality, and with telecommunication and network capability, as well as the creativity of game software. An analysis of historical sales data shows that the peak sales of game machine is usually in the first 2~3 years after debut of the new product, and will undergo a next generation replacement every 5 years. It is estimated that the new generation game machine shipment will reach 42 million units in 2007, a growth rate of 60% over the previous year.

2000-2010 Worldwide Game Machine Shipment Volume
(Source: MIC; Taiwan Securities Advisory compiled)

(C).Supply side

From the supply side, Japan has 65-70% of the global production, and it is the largest worldwide supplier. Taiwan, Europe, USA, Korea, China and other regions have a total of 30-35% of the global production. However, Taiwan has the highest density of the electronics industry and has a crystal components need of 25%+ of the global production, yet, Taiwan only produces less than 10% of the total global production. Hence, it is expected as long as the domestic manufacturers can promote their manufacturing technology and product quality, there would still be space for the domestic market growth.

(D). Market growth

TIC forecasts that the worldwide crystals and oscillators sales will reach US\$4.2 billion in 2009, with an annual composite growth rate of 8%. Following integration of the 3C industry and continual launching of new products, as well as strong demand for 4C (CAR) electronics, it is expected that demand for crystals and oscillators will maintain at a certain level. Driven by demand of sustained growth, enhancement of technology and expansion of capacity, manufacturers in Taiwan are expected for veritable future growth.

(4). Niches competition, the advantages/disadvantages of the future development, and the response strategies.

SWOT analysis

| Advantages | Disadvantages |
|--|---|
| <ol style="list-style-type: none"> 1. Have been in the industry for long time, and a higher market share, have good knowledge of customers and their production base, can team with their design and technical service ◦ 2. High flexible in adjust production line, has large and complete capability in production lines, excellent manufacturing improvement ability, efficient in production, and good competitiveness in unit cost ◦ 3. Global operation management, fast product delivery, a good customer service team, wide product line, can satisfy clients' one stop shop ◦ 4. High technical in vertical integration; better quality management and fast response in proposing total solution to clients application needs ◦ | <ol style="list-style-type: none"> 1. Need to develop the Europe, Japan and Korea market, and insufficient channel in America ◦ 2. Insufficient guidance in areas of critical materials, equipment development ◦ 3. Extent of Automation is limited in the front end manufacturing process ◦ 4. High requirements for the communication and automobile quality requirements 5. Insufficient application researchers in the communication and automobile industries ◦ |
| Opportunities | Threatens |
| <ol style="list-style-type: none"> 1. Plants in China can provide products easily to the nearby downstream clients ◦ 2. Low cost mobile phone and color monitor mobile phones becomes popular which will boost the product demand ◦ 3. With the new products replace the older model, and will increase the needs of the crystal components ◦ 4. Wirelescommunication grows rapidly and the future growth of Wireless LAN, Blue-toothis expected ◦ 5. Automobile industry is very large, and it will have a high demand of the product in future ◦ | <ol style="list-style-type: none"> 1. Competitors takeaway orders with lower price ◦ 2. Japanese manufacturers still have the advantages of crystal products used in mobile phone and automobiles, and the entry level is high ◦ 3. Some clients, with the cost considerations, might switch high end products to cheaper lower end products ◦ 4. With cost consideration, when clients design the end application products, they tend to integrate (or reduce) the number of crystal components used ◦ |

Respond Strategies

1. Enhance abroad sales teams , actively seeking Europe, USA,Japan and Korea etc Tier 1 clients .
2. Set manufacturing plants in China, train material handling/ automatic professionals in China .
3. Continuously to hire domestic trained as well as from abroad the research scientists and professionals in the communication and automobile parts industries.
4. Create more advantageous products , may take strategic alliance and partnership in some of the products for cost reduction .
5. Enhance product R&D ability , develop smaller size and high end products that to improve the overall profitability .
6. Enhance the development of quartz crystal modularized products .

2 、 Major products' important applications and their manufacturing process

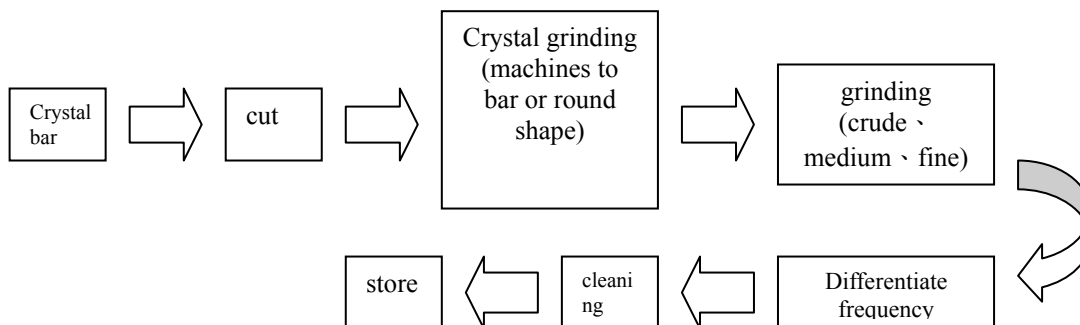

(1). Major products' important applications

| Crystal components product | | Major Applications |
|----------------------------|-----------------|---|
| Crystals | | Mobile phone 、 wireless equipment 、 、 W-LAN 、 wireless telephone 、 bluetooth 、 telephone terminal equipment 、 intelligent transport(ITS) 、 car accessories 、 LCDprojector 、 coping machine 、 computer 、 printer 、 scanner 、 audio-visual equipments 、 camera 、 games 、 beeper |
| Crystal Oscillators | CXO | base 、 wireless equipments 、 W-LAN 、 coaxial cable communication 、 fiber optics communication 、 telphony terminal equipments 、 counter/sythesizers 、 intelligent transport(ITS) 、 computer 、 storage device 、 printer 、 audio-isual device 、 camera 、 games |
| | VC-TCXO 、 TCXO | Mobile phone 、 base 、 wireless equipment 、 satellitecommunication 、 W-LAN 、 bluetooth 、 global positioning systems 、 coaxial cable communication 、 fiber optics communication |
| | VCXO | base 、 wireless equipments 、 satellite communication 、 W-LAN 、 coaxial cable communication 、 fiber optics communication 、 phony terminal equipment 、 counter/synthesizer |
| | OCXO | base 、 wireless equipments 、 satellite communication 、 global positioning systems 、 coaxial cable communication 、 fiber optics communication 、 counter/synthesizer |
| Filters | Crystal Filters | Mobile phone 、 base 、 wireless equipments 、 beeper |
| | SAW Filters | Mobile phone 、 wireless equipments 、 W-LAN 、 wireless telephone 、 global positioning systems |

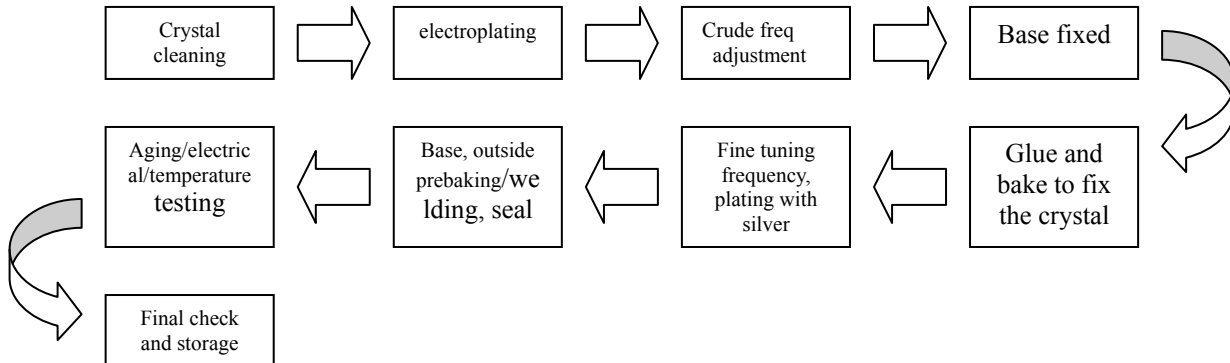

(2). Manufacturing Process

Steps for crystal components manufacturing are: first we need to manufacture the quartz crystal needed for the electrical material. It involves the cutting, polish, cleaning of the wafer form. Then with the mechanical arms to place the wafer on the base and fixed with the silver based glue. Then package it under vacuum. For oscillator then we need to add a layer IC beneath the crystal. By the metal conductivity property, we could control the crystal oscillation properties ◦

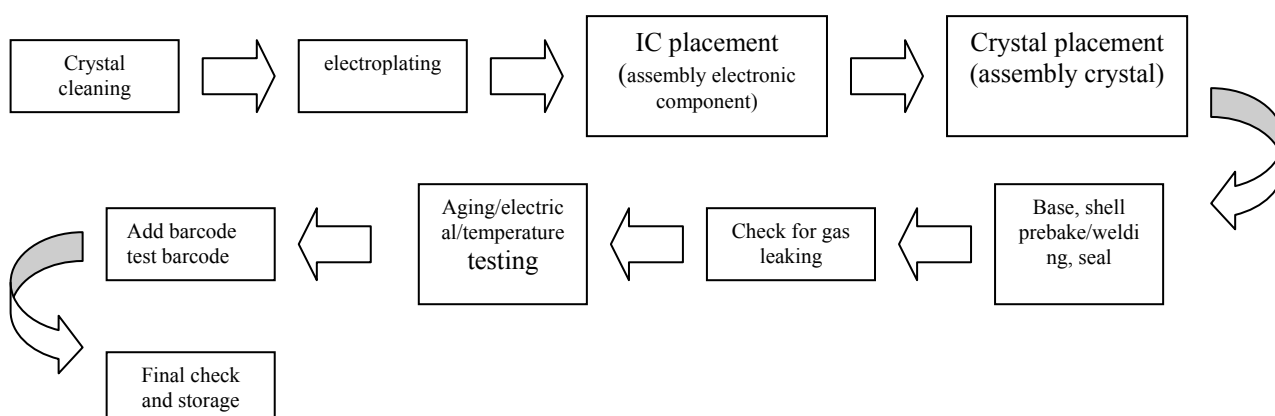

(a). Pre-manufacturing process – quartz crystal (During the entire manufacturing process, there is a loss of 20% of the quartz materials.)

(b). Post-manufacturing process – quartz crystal (use silver, gold, nickel for electroplating, and the process would reduce crystal frequency. Fine tuning the electroplating that would reduce frequency error to 3~10ppm)

(c). Post manufacturing process – crystal oscillator (use silver, gold, nickel for electroplating, and the process would reduce crystal frequency. Fine tuning the electroplating process that could reduce frequency error to 3~10ppm)

(3) State of the major materials suppliers

The major materials for crystal and crystal oscillators include the base, wire bond, IC package, crystal slice and crystal bars ◦

(a). All the materials come from the at least three suppliers, and this would minimize the risk of all materials coming from a single supplier. Our company's procurement depends on the buying terms, state of supply, and specifications; before the materials to be ordered. And, it also depends on some special conditions that we would adjust the ratio of buying materials and this approach would help us not too concentrated the ordering from a single supplier, or running the risks of the orders being interrupted ◦

(b). All the suppliers have long term relationship with us. And, our friendship is good. With our company is growing strongly, these suppliers would also take highest priority to satisfy our company needs ◦ Annually, we also meet with our suppliers on regular or irregular base to review our purchasing terms and any room for the improvement. This also helps a stable and continuous relationship in the materials supply ◦

(c). In considering the steady material supply, our company will provide the Rolling Forecast to the suppliers and the production preparations. This can shorten the delivery time and an assurance of on time delivery. If there is any unusual situation, these suppliers will accommodate our needs to assure a stable supply.

D · Data on our environmental protection expense

- 1 Total loss of the past two years from the environmental pollution, penalty; and the future response and its possible expenses : no
2. The environmental protection regulatory requires the permit for pollution control equipments, or the permission to discharge, or a fee charged for the pollution prevention, or designated personnel for the environment protection affairs. To illustrate the filing, pay fee or implementation as follows:

| Item | Description |
|---|---|
| Permit for air pollution equipment | has applied to Taoyun county, environ protection agency |
| Paid fee for pollution prevention | monthly pollution treatment fee is about NT\$100,000 |
| Designated environment protection personnel | According to law, our company doesn't need to designate personnel for environment protection affair |

Our Pinzhen plant is responsible for the manufacturing of crystal and microelectronics products. We have already paid attention to the noise level; and have taken precautions in dealing with the possible pollution from the dust from grinding, and waste. We have implemented the water treatment plant to deal with the waste water from the grinding operations. The treatment plant is certified and we also receive certificate to release the treated water. Our Peitou plant deals only with testing and packaging, and will not cause any pollution.

Our green product policy:

The protection of our planet is a common topic in the 21 century for all the mankind. To believe in the protection of our planet and the creation of a well living environment for our future generations, and it is the corporate responsibility to protect the environment as well as maintaining a health living environment for all living life. TXC also carries the social duty, and we are actively engaging the environment management activities.

- Pursue the most restrict environmental regulations or, follow our clients' green standard, and then we will take them as TXC green product standard. It will make TXC the best partner with our clients ◦
- You need to document the environment guidelines. We will drive training sessions on the environmental protection topics, and our employees must have a good understanding and knowledge on the environmental protection issues ◦
- With the help of company activities we will assure that our green products meet the quality requirements, or even exceed the green products' quality requirements ◦
- Regularly auditing, managing review; and continuously improve the environment management system ◦
- We need to design the green products. And the long lasting of any company operations will depend on the environmental protection focusing and customer satisfaction focusing ◦

In addition, in order to meet the RoHS requirements, or the European Union's environmental

protection regulations, our company has also concentrated on the green product requirements. We have completed the updated of the ISO14001(2004); and in February 2006, with the efforts from all of our employees, we were certified SONY's Green Partner (GP) auditing; and have become one of their green partners. In future we will assist our suppliers; and we both will work together on the improvement of the management of the environment materials.

Status of our products response to European Union environmental protection regulatory by our export directly and indirectly to Europe :

| | Under investigation | Under improvement | Completed |

RoHS progress in responding of EU's environmental protection regulatory %

E 、 Employer/Employee Relation

(1) The Company has maintained harmonious employer/employee relation since its establishment. In recent years and since the closing date for publication of the annual report, there are no losses due to employer/employee disputes and there have never been any major employer/employee disputes since its establishment. Aside from holding employer/employee meetings and discussion meetings for new employees and for foreign nationals, and conducting employee satisfaction investigation, we have also set up an employee opinions mailbox and other channels for reflecting their opinions. We have spared no efforts toward employee benefits. We have often stressed the importance of employees and have provided employee bonus in stock allotment, stock options, and cash for wedding / funeral / other festive occasions, emergency relief fund, group insurance / medical checkup, subsidies for tour at home or abroad, as well as discounts for books, magazines and special convenience stores; and sponsor birthday celebrations, sports competition, year-end party and luck draw, various recreational activities and commendation of senior and outstanding employees; also provide canteen, hostel and parking lots, table tennis table, pool table and other facilities. It is hoped that through coordination of the employee welfare committee with the Company to promote employer/employee harmony and guarantee employee benefits and health in a bid for win-win for both the employer and the employees.

(2) Employee education and training:

The Company provides employees a multiple learning environment. Colleagues can continually challenge their growth limit through internal / external training, OJT, KM (knowledge management system), reading clubs, online / physical library, and supervisor / peer instruction. At the same time, through the new employees / professional technology / supervisor coaching / general knowledge course / self-development education and training system to bring maximum satisfaction for employees! On the other hand, through planning of job category / job level, work rotation, project allocation and overseas assignments to integrate their lives with their careers and enable them enjoy the happiness of growth in knowledge and skills and develop a bright future.

The Company has formulated management regulations for employee education and training and mapped out relevant training courses in view of job function and professional requirements in order to enhance the knowledge and raise the quality of employees for better operation performance. The relevant education and training results are as follows:

| Item | No. of Class | Total No. of Trainees | Total No. of Hours | Total Expense |
|--|--------------|-----------------------|--------------------|---------------|
| 1. New employees training | 7 | 150 | 1,050 | - |
| 2. Job Function Training | 113 | 2,231 | 12,283 | 1,164,900 |
| 3. Management Level Training | 2 | 40 | 225 | 53,000 |
| 4. General Knowledge Training | 6 | 650 | 818 | 27,000 |
| 5. Self Heuristic Growth Training Course | 12 | 439 | 5,268 | 24,000 |
| Total | 140 | 3,510 | 19,644 | 1,268,900 |

- (3) Finance personnel acquired relevant certificates specified by the competent government organ:
1. The Company's finance supervisor qualified for Professional Certification of Finance and Accounting Supervisor of Publicly-listed Companies sponsored by the R.O.C. Accounting Research Development Fund.
 2. One finance personnel of the Company acquired the Internal Auditor Certificate issued by the Internal Auditing Association.
- (4) The Company formulated the employee retirement regulation in accordance with the Labor Law, and periodically appropriated retirement funds into the Central Trust Bureau in accordance with the law. The employee retirement fund monitoring committee is responsible for the management and use of the retirement preparatory fund. The Legislative Yuan adopted after a third reading on 11 June 2004, and started to enforce from 1 July, 2005 monthly appropriation of retirement fund to the employee personal retirement fund account set up in the Labor Insurance Bureau in accordance with the Labor Retirement Fund Regulation.
- (5) To protect employees with work safety the Company has formulated the following control methods regarding the work environment and employee body safety protection and call on employees for thorough implementation: The Company formulated the TXC Contingency Plan in December 2005 to ensure safety of life and countermeasures for emergency and accidents. For details, go to the company website: www.txccorp.com °
- (6) Loss from employer/employee disputes in recent years and disclosure of present and future losses in anticipation of employer/employee disputes and countermeasures: Nil
- (7) Formulation of guidelines for employee conduct or morality: The Company already formulated the TXC Conduct Guideline in August 2005 to govern the conduct and morality of employees. For details, go to the company website: www.txccorp.com °
- (8) Fulfillment of Social Responsibility:

In line with the Company's humanitarian conviction of caring for the disadvantaged, we have paid special attention to caring for the old, the young and the disabled in 2005 and have annually lay out budget to feedback to society in various ways and fulfill its social responsibility. Aside from continual donations in 2007 to Longtan Education Institute for the Mentally Retarded and

the Syin-Lu Culture and Education Foundation, we have also made donations to education as follows:

- (1) Taipei City Beitou District Yatsen Elementary School---sports installation and equipment
- (2) Taipei City Beitou District Wenhua Elementary School---books and arts donation
- (3) Sponsored sports competition for the disabled in collaboration with the Industrial and Commercial Construction Study Committee.
- (4) Taoyuan County Pingzhen City Xiangan Elementary School---sponsored international sports competition.
- (5) Taipei City Wanhua District Dali Elementary School---books donation
- (6) Taipei City Wanhua District Dali Elementary School—musical instruments donation and repair

VI. An Overview of the Company's Financial Status

A. Abbreviated Balance Sheets and P/L Statements for the Past 5 Years

(1) Abbreviated Balance Sheets

Note I : The financial statements of TXC Corporation were audited and certified by CPA. EPS is before retroactively adjust.

NoteII : Glossary :

1. Capital Structure Analysis

(1) Debt ratio = Total liabilities / Total assets

(2) Long-term fund to fixed assets ratio = (Total stockholders' equity + Long-term liabilities) / Net Fixed Assets

2. Liquidity Analysis

(1) Current Ratio = current assets / current liabilities

- (2) Quick Ratio = (current assets – Inventories – Prepaid expenses) / current liabilities
- (3) Times interest earned = Earnings before interest and taxes / Interest expenses
3. Operating performance Analysis
- (1) Average collection turnover =
 Net sales / Average trade Receivables
- (2) Days sales outstanding = 365 / Average collection turnover
- (3) Average inventory turnover = Cost of good sold / Average inventory °
- (4) Average payment turnover = Cost of good sold / Average trade Payables
- (5) Average inventory turnover(Days) = 365 / Average inventory turnover
- (6) Fixed assets turnover = Net sales / Net Fixed Assets
- (7) Total assets turnover = Net sales / Total assets
4. Profitability Analysis
- (1) Turn on total assets = [Net income + Interest expenses × (1 – Effective tax rate)] / Average total assets °
- (2) Turn on total equity = Net income / Average stockholders' equity °
- (3) Net margin = Net income / net sales °
- (4) Earnings per share = (Net income – Perferred stock dividend) / Weighted average number of shares outstanding
5. Cash Flow
- (1) Cash flow ratio = Net cash provided by operating activities / current liabilities
- (2) Cash flow adequacy ratio = Five-year sum of cash from operations / Five-year sum of capital expenditures, inventory additions, and cash dividend.
- (3) Cash flow reinvestment ration = (Cash provided from operating activities – Cash dividend) / (Grosss fixed assets + investment + Other assets + Working capital)
6. Leverage
- (1) Operating leverage = (Net sales – Variable cost) / Income from operations
- (2) Financial Leverage = Income from operations / (Income from operations – Interest expenses)

**C. Financial Statements for the most Recent years, including an auditor's Report
Prepared by a CPA**

TXC Corporation

**Financial Statements for the
Years Ended December 31, 2006 and 2005 and
Independent Auditors' Report**

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Stockholders
TXC Corporation

We have audited the accompanying balance sheets of TXC Corporation (the "Corporation") as of December 31, 2006 and 2005, and the related statements of income, changes in stockholders' equity, and cash flows for the years then ended. These financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of TXC Corporation as of December 31, 2006 and 2005, and the results of its operations and its cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

We have also audited the accompanying schedules of significant accounts, provided for supplementary analysis, by applying the same procedures described above. In our opinion, such schedules are consistent, in all material respects, with the financial statements referred to above.

As stated in Note 3 to the financial statements, the Corporation adopted the Statement of Financial Accounting Standards No. 35, "Accounting for Impairment of Assets," on January 1, 2005.

As stated in Note 3 to the financial statements, on January 1, 2006, the Corporation adopted the newly released Statement of Financial Accounting Standards (SFAS) No. 34, "Accounting for Financial Instruments," and No. 36, "Disclosure and Presentation of Financial Instruments" and related revisions of previously released SFASs.

We have also audited the consolidated financial statements of TXC Corporation and subsidiaries as of and for the years ended December 31, 2006 and 2005, and expressed modified unqualified opinion with explanatory paragraphs on such financial statements.

March 5, 2007

Notice to Readers

The accompanying financial statements are intended only to present the financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors' report and the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors' report and financial statements shall prevail.

TXC CORPORATION

NOTES TO FINANCIAL STATEMENTS YEARS ENDED DECEMBER 31, 2006 AND 2005 (In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. ORGANIZATION AND OPERATIONS

TXC Corporation (the "Corporation") was incorporated on December 28, 1983 under the Company Law and other related regulations of the Republic of China (ROC).

On July 31, 2002, the Corporation was authorized by the Securities and Futures Commission of the Ministry of Finance of ROC to become a public listed company. On August 26, 2002, the Corporation's shares began to be traded on the Taiwan Stock Exchange.

The Corporation mainly produces and sells crystals, crystal oscillator and SAW (surface acoustic wave) filters and Timing Module (TM).

As of December 31, 2006 and 2005, the Corporation had 806 and 690 employees, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying financial statements have been prepared in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the ROC. In conformity with these guidelines and principles, the Corporation is required to make certain estimates and assumptions that could affect the amounts of the allowance for doubtful accounts, allowance for inventory devaluation, depreciation, pension, etc. Actual results could differ from these estimates.

For the convenience of readers, the accompanying financial statements have been translated into English from the original Chinese version prepared and used in the ROC. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language financial statements shall prevail.

The Corporation's significant accounting policies are summarized as follows:

Current/Noncurrent Assets and Liabilities

Current assets include cash and cash equivalents and those expected to be converted to cash, sold or consumed within 12 months from the balance sheet date. Property, plant and equipment, intangible assets and those not classified as current assets are noncurrent assets. Current liabilities are obligations incurred for operating purposes and expected to be paid or settled within 12 months from the balance sheet date. All other liabilities not classified as current liabilities are noncurrent liabilities.

Cash Equivalents

Government bonds acquired under resell agreements and having maturities of up to three months from the date of purchase are classified as cash equivalents.

Financial Assets/Liabilities at Fair Value through Profit or Loss

Financial instruments at fair value through profit or loss include financial assets or liabilities held for trading and those designated on initial recognition to be measured at fair value with fair value changes recognized in profit or loss. The financial instruments are recognized and carried at fair value plus transaction costs with fair value changes recognized in profit or loss. A regular way purchase or sale of financial instruments is recognized and derecognized using transaction date accounting.

Fair value is estimated using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. Derivatives that do not meet the criteria for hedge accounting are recognized at fair value. When the fair value is a positive amount, the derivative is recognized as a financial asset; when the fair value is a negative amount, the derivative is recognized as a financial liability.

Available-for-Sale Financial Assets

Available-for-sale financial assets are recognized and carried at fair value plus transaction costs that are directly attributable to the acquisition. The changes in fair value are excluded from earnings and reported as a separate component of stockholders' equity. The accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial asset is recognized and derecognized using transaction date accounting.

The fair value of investments in open-end funds is the year-end net asset value of the funds.

If there is objective evidence that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to stockholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Revenue Recognition and Allowance for Doubtful Accounts

Revenue is recognized when ownership and risk of loss or liability for changes to products are transferred to customers, usually upon shipment. Sales returns and discounts, which take into consideration customers' complaints and past experiences, are accrued in the same year of sales.

Allowance for doubtful accounts is provided on the basis of management's evaluation of the collectibility of receivables, past loss experience and pertinent factors.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the weighted average method, and market value is based on net realizable value of finished goods, work in process and merchandise and on replacement cost of raw materials.

Financial Assets Carried at Cost

Investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are carried at original cost, such as non-publicly traded stocks.

Cash dividends are recognized as dividend income on the ex-dividend date, but are accounted for as reductions to the original cost of investments if such dividends are declared on the earnings of investees attributable to periods prior to the purchase of investments. Stock dividends are not recognized as current income but are accounted for only as an increase in the number of shares held. The cost per share is recalculated based on the new number of shares.

If there is objective evidence that a financial asset is impaired, a loss is recognized. No recording of a subsequent recovery in fair value is allowed.

Investments Accounted for Using Equity Method

Long-term investments in which the Corporation owns 20% or more of an investee's outstanding voting shares or exercises significant influence on the investee are accounted for by the equity method.

Gains or losses on sales to investees over which the Corporation has a controlling interest are deferred until such gains or losses are realized through the subsequent sale of the related products to third parties.

Gains or losses on sales of investees to the Corporation are deferred in proportion to the Corporation's ownership percentage in the investees until they are realized through transactions with third parties.

Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Expenditures that would increase the value or extend the useful lives of the property, plant, and equipment are capitalized. Repairs and maintenance are expensed currently. Interest incurred for the construction of major facilities is capitalized.

Depreciation is calculated using the straight-line method over the estimated useful lives of: buildings - 5 to 60 years; machinery and equipment - 3 to 9 years; transportation equipment - 3 to 6 years; miscellaneous equipment - 5 to 15 years.

Upon sale or disposal of property, plant and equipment, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss is credited or charged to nonoperating income.

Asset Impairment

An impairment loss should be recognized whenever the aggregate carrying amount of specific assets exceeds their recoverable amount, and this impairment loss should be charged to current income.

An impairment loss recognized in prior years may be reversed if, there has been a subsequent recovery in the estimates used to determine recoverable amount since the last impairment loss was recognized. However, an impairment loss is reversed only to the extent that it does not increase the carrying amount of an asset above the carrying amount that would have been determined for the asset (net of depreciation) had no impairment loss been recognized in prior years.

Employee Stock Options

Employee stock option plans that are amended or have options granted on or after January 1, 2004 must be accounted for in accordance with the interpretations issued by the Accounting Research and Development Foundation. Thus, for its option plans, the Corporation adopted the intrinsic value method under which any compensation cost is charged to expense over the vesting period.

Pension Plan

The Corporation's accounting for pensions is in accordance with the generally accepted accounting standards for pension and related regulations. Net pension cost and related asset or liabilities are determined actuarially.

Convertible Bonds

Convertible bonds that were issued before December 31, 2005 are classified as current or noncurrent according to the redemption dates. When the Corporation converts bonds to shares of stock, it writes off the sum of the balances of the carrying value of the bonds, redemption premium and issuance costs. The common stock exchange certificate (capital stock) is then valued at its carrying amount net of the amounts written off, and the difference between the net amount and the par value of the certificate is recognized as capital surplus.

For convertible bonds issued on or after January 1, 2006, the carrying value of host contract is recorded in total proceeds from the issuance less the (1) fair value of embedded derivatives and (2) issuance costs allocated to bond payable under the initially recognized amount. When the fair value of the bonds is subsequently measured at amortized cost using the effective interest rate method, the related interest expense or redemption gain is recognized as loss or earnings. When the bondholder exercises the conversion option before bond maturity, the adjusted carrying value of the debt components (bonds and embedded derivatives are included) is credited to a capital stock accounts.

Income Tax

The Corporation adopted inter-period tax allocation. Deferred income taxes are recognized for tax effects of temporary differences and unused tax credits. Valuation allowance is provided for deferred income tax assets that are not certain to be realized. Deferred tax assets and liabilities are classified as current or noncurrent accounts according to the classifications of their related assets and liabilities for financial reporting. If deferred tax assets and liabilities cannot be related to the assets or liabilities in the financial statement, they are classified as current or noncurrent on the basis of the length of the reversal or realization period.

Deferred income tax liabilities derived from the temporary differences between the carrying amounts and tax base of long-term investments are not recognized, if it is expected that a foreign subsidiary will not distribute its earnings in the future and the difference will permanently exist.

The Corporation adopts the flow-through method for income tax credits resulting from the purchase of certain equipment for automation of production or production technology, research and development expenditures, personnel training, etc.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax expense.

Income tax (10%) on undistributed earnings generated since 1998 is recorded as expense in the year when the stockholders resolve to retain these earnings.

Foreign-currency Transactions

Transactions negotiated in foreign currencies (except derivative transactions) are recorded in New Taiwan dollars at the exchange rates in effect on the transaction dates. Gains or losses caused by applying prevailing exchange rates when foreign-currency receivables and payables are settled, are credited or charged to current income. Balance sheet date balances of assets and liabilities denominated in foreign currencies are restated at the balance sheet date exchange rates, and any resulting gains or losses are credited or charged to current income.

The financial statements of consolidated foreign subsidiaries and other equity-method foreign investees are translated from their respective local currencies into New Taiwan dollars as follows:

- Assets and liabilities - at the rate as of the balance sheet date;
- Stockholders' equity accounts - at the historical rate, except for the beginning balance of the retained earnings, which is carried at the translated amount of the previous period;
- Income statement accounts - at the weighted-average rate of the current period.

Exchange gains or losses resulting from the above financial statement translation are recorded as "translation adjustments," which are presented as a separate component of stockholders' equity.

The above prevailing exchange rates are based on the Interbank Spot Market closing rates of Central Bank of China.

Reclassifications

Certain accounts for the year ended December 31, 2005 have been reclassified to be consistent with the presentation of the financial statements for the year ended December 31, 2006.

3. CHANGES IN ACCOUNTING PRINCIPLES

On January 1, 2006, the Corporation adopted the newly released Statement of Financial Accounting Standards No. 34 "Accounting for Financial Instruments" and No. 36 "Disclosure and Presentation of Financial Instruments" and related revisions of previously released SFASs.

- a. Effect of adopting the newly released SFASs and related revisions of previously released SFASs

The Corporation had properly categorized its financial assets and liabilities upon initial adoption of the newly released SFASs. The adjustments made to the carrying amounts of the financial instruments categorized as financial assets or financial liabilities at fair value through profit or loss were included in the cumulative effect of changes in accounting principles; on the other hand, the adjustments made to the carrying amounts of those categorized as available-for-sale financial assets were recognized as adjustments to stockholders' equity.

The effect of adopting the newly released SFASs is summarized as follows:

| | Recognized as Cumulative Effect of Changes in Accounting Principles (Net of Tax) | Recognized as a Separate Component of Stockholders' Equity (Net of Tax) |
|--|---|--|
| Available-for-sale financial assets | \$ - | \$ 2 |
| Financial liabilities at fair value through profit or loss, noncurrent | <u>(17,267)</u> | <u>-</u> |
| | <u>\$ (17,267)</u> | <u>\$ 2</u> |

The adoption of the newly released SFASs resulted in a cumulative effect of changes in accounting principles of NT\$17,267 thousand (net of tax), a decrease in net income of NT\$17,267 thousand, and a decrease in after income tax basic earnings per share of NT\$0.08 dollar, for the year ended December 31, 2006.

b. Reclassifications

Upon the adoption of SFAS No. 34, certain accounts in the financial statements as of and for the year ended December 31, 2005, were reclassified to conform with the financial statements as of and for the year ended December 31, 2006. The previously issued financial statements as of and for the year ended December 31, 2005 need not be restated.

Certain accounting policies prior to the adoption of the newly released SFASs are summarized as follows:

1) Short-term investments

Marketable securities are initially stated at their acquisition cost. Stock dividends received from invested companies are not recognized as investment income but are merely noted as an increase in the number of shares held. The cost of stocks and mutual funds sold is determined using the weighted-average method. At year-end, all short-term investment are evaluated at the lower of aggregate cost or market value. Gain on value recovery or loss on value decline at year-end is recorded currently. The market values of investments in listed closed-end funds, listed stocks, and stocks traded over the counter are their respective average closing prices in the last month of the year. The market value of investments in open-end funds is the year-end net asset value of the funds.

2) Long-term investments

Long-term investments in which the Corporation exercises significant influence on the investees are accounted for by the equity method. Under this method, the investments are stated at cost and subsequently adjusted for the Corporation's share in the net earnings or other changes in stockholders' equity of the investee companies. Cash dividends received are recorded as reductions of the investment.

Other long-term investments in which the Corporation has no significant influence on the investees are accounted for by the cost method.

3) Derivative financial instruments

For derivative financial instruments (forward exchange and currency option contracts), which are used to hedge risk exposures on foreign-currency assets or liabilities, any resulting gains or losses may either be credited or charged to current income or reported as adjustments to the carrying amount of the hedged assets or liabilities. For forward exchange contracts used to hedge identifiable foreign-currency sales commitments and the contract settlement dates are ahead of the actual selling dates, any exchange gain or loss should be deferred to the actual sales transaction date and recorded as an increase in the transaction price if the commodity purchase price is lower than the actual selling price. But if the exchange loss will result in a loss on actual sales because the actual selling price will become lower than the purchase price, the exchange loss should not be deferred.

Certain accounts in the financial statements as of and for the year ended December 31, 2005 have been reclassified to conform to the 2006 classifications prescribed by the newly released and revised SFAS. The reclassifications of the whole or a part of the account balances of certain accounts are summarized as follows:

| | Before Reclassification | After Reclassification |
|-------------------------------------|------------------------------------|-----------------------------------|
| <u>Balance sheet</u> | | |
| Short-term investments | \$ 60,000 | \$ - |
| Long-term investments | 3,000 | - |
| Available-for-sale financial assets | - | 60,000 |
| Financial assets carried at cost | - | 3,000 |
| | <u>\$ 63,000</u> | <u>\$ 63,000</u> |

The Corporation adopted the Statement of Financial Accounting Standards No. 35, "Accounting for Impairment of Assets" on January 1, 2005. As a result, the carrying value of idle assets decreased by \$8,687 thousand. The impairment loss was \$8,687 thousand for the year ended December 31, 2005.

4. CASH AND CASH EQUIVALENTS

| | <u>December 31</u> | |
|---------------------------------------|--------------------|-------------------|
| | 2006 | 2005 |
| Cash on hand | \$ 1,531 | \$ 701 |
| Checking accounts and demand deposits | 183,892 | 195,728 |
| Time deposits | 116,711 | 16,557 |
| Cash equivalents | | |
| Bonds with repurchase rights | 495,000 | - |
| | <u>\$ 797,134</u> | <u>\$ 212,986</u> |

5. FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

| | <u>December 31</u> | |
|--|--------------------|-------------|
| | <u>2006</u> | <u>2005</u> |
| <u>Derivatives - financial liabilities</u> | | |
| Forward contracts | \$ 1,744 | \$ - |
| Interest rate swap contracts | <u>\$ 18,944</u> | <u>\$ -</u> |

The Corporation entered into derivative transactions during the years ended December 31, 2006 and 2005 to manage exposures related to foreign exchange rate and interest rate fluctuations.

Outstanding forward contracts as of December 31, 2006 and 2005:

| <u>December 31, 2006</u> | Currency | Maturity | Contract Amount (In Thousands) |
|--------------------------|-----------------|--|---|
| Sell | USD/NTD | January 9, 2007 to February 9, 2007 | US\$4,000/NT\$129,718 |
| Sell | USD/JPY | January 26, 2007 to February 15, 2007 | US\$4,500/JP¥527,888 |
| Sell | NTD/JPY | February 14, 2007 | NT\$8,268/JP¥30,000 |

Outstanding Interest rate swap contracts as of December 31, 2006:

| Maturity Date | Contract Amount (In Thousands) | Range of Interest Rates Paid | Range of Interest Rates Received |
|----------------------|---|---|---|
| August 12, 2010 | \$ 300,000 | 3.68% | Rate on 90-day commercial paper |

Net gains arising from derivative financial instruments for the year ended December 31, 2006 was \$4,079 thousand.

6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

| | <u>December 31</u> | |
|--------------|--------------------|------------------|
| | <u>2006</u> | <u>2005</u> |
| Mutual funds | <u>\$ 150,183</u> | <u>\$ 60,000</u> |

7. NOTES RECEIVABLE AND ACCOUNTS RECEIVABLE

| | December 31 | |
|--|---------------------|---------------------|
| | 2006 | 2005 |
| Notes receivable from third parties | \$ 44,813 | \$ 85,758 |
| Notes receivable from related parties | <u>-</u> | <u>-</u> |

| Merchandise inventories | 193,878 | 230,629 |
| Merchandise in transit | <u>27,715</u> | <u>35,954</u> |
| | 628,998 | 603,623 |
| Less allowance for loss on decline in market value and obsolescence | <u>(28,093)</u> | <u>(15,990)</u> |
| | <u>\$ 600,905</u> | <u>\$ 587,633</u> |

9. FINANCIAL ASSETS CARRIED AT COST

| | December 31 | |
|----------------------------|-----------------|-----------------|
| | 2006 | 2005 |
| Non-publicly traded stocks | <u>\$ 3,000</u> | <u>\$ 3,000</u> |

10. INVESTMENTS ACCOUNTED FOR USING EQUITY METHOD

| | December 31 | | | |
|---|---------------------|----------------------|-------------------|----------------------|
| | 2006 | | 2005 | |
| | Carrying Value | Ownership Percentage | Carrying Value | Ownership Percentage |
| Taiwan Crystal Technology International Ltd. ("TCTI") | \$ 1,137,953 | 100 | \$ 845,913 | 100 |
| TXC Technology Inc. | 2,702 | 100 | 5,097 | 100 |
| TXC Japan Corporation | <u>2,788</u> | 100 | <u>2,072</u> | 100 |
| | <u>\$ 1,143,443</u> | | <u>\$ 853,082</u> | |

On September 13, 2005, the Corporation's stockholders resolved to establish TXC Japan Corporation, a wholly owned subsidiary that will engage in marketing. The Corporation invested \$2,973 thousand in this subsidiary.

Equity in earnings (loss) of investees for the years ended December 31, 2006 and 2005 was as follows:

| | Equity in Investees Gain (Loss) | | Original Cost |
|-----------------------|------------------------------------|------------------|---------------|
| | 2006 | 2005 | 2006 |
| | TCTI | \$ 124,900 | \$ 48,576 |
| TXC Technology Inc. | (2,351) | 131 | US\$ 300 |
| TXC Japan Corporation | <u>(909)</u> | <u>(757)</u> | JP¥ 16,000 |
| | <u>\$ 121,640</u> | <u>\$ 47,950</u> | |

The financial statements used as basis for calculating the above equity-method investments had all been audited, except TXC Technology Inc. and TXC Japan Corporation.

11. PROPERTY, PLANT AND EQUIPMENT

| | December 31 | | | |
|--------------------------------------|---------------------|--------------------------|---------------------|---------------------|
| | 2006 | | 2005 | |
| | Cost | Accumulated Depreciation | Carrying Value | Carrying Value |
| Land | \$ 157,040 | \$ - | \$ 157,040 | \$ 157,040 |
| Land - revaluation increment | 8,954 | - | 8,954 | 8,954 |
| Land improvements | 442 | 343 | 99 | 169 |
| Buildings | 277,570 | 132,728 | 144,842 | 158,759 |
| Machinery equipment | 1,810,816 | 761,124 | 1,049,692 | 904,860 |
| Transportation equipment | 2,557 | 1,856 | 701 | 1,382 |

| | <u>\$ 205,275</u> | | <u>\$ 165,208</u> | |

See Note 23 for details of pledged assets.

14. BONDS PAYABLE

| | <u>December 31</u> | |
|---|--------------------|------------------|
| | <u>2006</u> | <u>2005</u> |
| Domestic | | |
| First domestic unsecured convertible corporate bonds | \$ - | \$ 19,800 |
| Second domestic unsecured convertible corporate bonds | 800,000 | - |
| Liability component of domestic unsecured convertible corporate bonds | (36,689) | - |
| Add accrued interest compensation | - | 699 |
| | <u>\$763,311</u> | <u>\$ 20,499</u> |

First Domestic Unsecured Convertible Corporate Bonds

On December 31, 2003, the Corporation issued first domestic unsecured convertible bonds with an aggregate face value of \$400,000 thousand and maturity on December 31, 2008. Nominal interest is 0%. Other details of the bond issuance are summarized as follows:

- (a) On the third and fourth anniversaries of the issuance date, bonds are redeemable at a price of 103.02% and 105.34%, respectively, of face value plus accrued interest. On maturity, bonds will be redeemed at face value.
- (b) During the period between three months after issuance and the 40th day before maturity, except for the period between the ex-dividend date and the date of record, holders can request for conversion of the bonds to the Corporation's common stock.
- (c) The original conversion price per share is NT\$20.00. The conversion price is subject to adjustment based on a certain formula if there are changes in outstanding shares or execution of conversion below market price.

Second Domestic Unsecured Convertible Corporate Bonds

On November 8, 2006, the Corporation issued second domestic unsecured convertible bonds with an aggregate value of \$800,000 thousand and maturity on November 8, 2011. Nominal interest is 0%. As of December 31, 2006, the Corporation's outstanding domestic unsecured convertible corporate bonds were \$800,000 thousand. According to Statement of Financial Accounting Standards No. 36, "Disclosure and Presentation of Financial Instruments," these domestic unsecured convertible bonds were separated into convertible options, equity (Note 17), and bonds payable, liability. Other details of the bond issuance are summarized as follows:

- (a) On the third anniversaries of the issuance date, bonds are redeemable at face value.
- (b) During the period between one month after issuance and the 40th day before maturity, the Corporation can redeem the bonds from holders at contracted price.
- (c) During the period between one month after issuance and the 10th day before maturity, except for the period between the ex-dividend date and the date of record, holders can request for conversion of the bonds to the Corporation's common stock.
- (c) The original conversion price per share is NT\$52.00. The conversion price is subject to adjustment based on a certain formula if there are changes in outstanding shares or execution of conversion below market price.

15. LONG-TERM LOANS

| Nature of Loans | Repayment Period | December 31 | |
|----------------------|---|-------------------|-------------------|
| | | 2006 | 2005 |
| Unsecured bank loans | Repayable at maturity on September 3, 2021 | \$ 160,000 | \$ - |
| Unsecured bank loans | Repayable in quarterly installments, maturing on February 2, 2007 | - | 40,000 |
| Unsecured bank loans | Repayable at maturity on October 26, 2008 | 200,000 | 250,000 |
| Chinatrust loan | | <u>50,000</u> | <u>180,000</u> |
| | | 410,000 | 470,000 |
| Less current portion | | <u>(50,000)</u> | <u>(80,000)</u> |
| | | <u>\$ 360,000</u> | <u>\$ 390,000</u> |
| Interest rate (%) | | 2.15~3.0579 | 0~2.8716 |

See Note 23 for collateral on long-term loans.

As of December 31, 2006, the Corporation had issued to various banks promissory notes amounting to \$1,875,500 thousand to secure short-term loans and long-term loans.

On September 6, 2004, the Corporation signed a syndicated loan agreement for \$500,000 thousand with Chinatrust Commercial Bank and five other financial institutions. The syndicated loan can be separated into two parts and terms summarized as follows:

| Credit Lines | Credit Amount | Credit Period | Interest Rate | Repayment Agreements |
|-------------------|-------------------|--|---------------|---|
| \$ 300,000 | \$ 300,000 | Three years after the first drawdown date including additional one year. | 2.9611% | Six semiannual installments starting from one year after the first drawdown date. |
| 200,000 | 50,000 | Three years after the first drawdown date. | 3.0579% | Lump sum on due date. |
| <u>\$ 500,000</u> | <u>\$ 350,000</u> | | | |

16. PENSION PLAN

The Labor Pension Act (the Act) became effective on July 1, 2005, and the pension mechanism under the Act is deemed a defined contribution plan. Employees who were subject to the Labor Standards Law prior to July 1, 2005 were allowed to choose to be subject to the pension mechanism under the Act or continue to be subject to the pension mechanism under the Labor Standards Law. For those employees who were subject to the Labor Standards Law before July 1, 2005 and still work for the same company after July 1, 2005 and have chosen to be subject to the pension mechanism under the Act, their seniority as of July 1, 2005 shall be maintained. Employees who joined the Corporation after July 1, 2005 can only be subject to the pension mechanism under the Act.

The Act prescribes that the contribution by an employer to employees' pension accounts per month shall be in amount equal to not less than 6% of each employee's monthly salary. Pursuant to the Act, the Corporation has made monthly contributions to employees' pension accounts starting from July 1, 2005, and recognized pension costs of \$12,802 thousand for the year ended December 31, 2006.

The Corporation has a defined benefit plan under the Labor Standards Law that provides benefits based on an employee's length of service and average monthly salary for the six-month period prior to retirement. The Corporation contributes an amount equal to 2% of salaries paid each month to a pension fund (the Fund). The Fund is administered by the pension fund monitoring committee (the Committee) and deposited in the Committee's name in the Central Trust of China.

Information of Pension

Net periodic pension costs for the years ended December 31, 2006 and 2005 were as follows:

| | 2006 | 2005 |
|-------------------------------------|-----------------|-----------------|
| Service cost | \$ 1,884 | \$ 3,859 |
| Interest cost | 1,596 | 1,543 |
| Expected return on plan assets | (1,721) | (1,516) |
| Amortization of unrecognized losses | <u>377</u> | <u>557</u> |
| Net periodic pension cost | <u>\$ 2,136</u> | <u>\$ 4,443</u> |

Reconciliation of fund status of the plan and accrued pension cost was as follows:

| | 2006 | 2005 |
|---|-------------------|-------------------|
| Benefit obligations | | |
| Vested benefit obligation | \$ (4,633) | \$ (4,596) |
| Nonvested benefits | <u>(37,355)</u> | <u>(33,522)</u> |
| Accumulated benefit obligation | (41,988) | (38,118) |
| Effect of future salary increase | <u>(14,635)</u> | <u>(11,002)</u> |
| Projected benefit obligation | (56,623) | (49,120) |
| Plan assets at fair value | <u>55,989</u> | <u>50,429</u> |
| Plan assets in excess of projected benefit obligation (Projected benefit obligation in excess of plan assets) | (634) | 1,309 |
| Unrecognized net transition obligation | 634 | 972 |
| Unrecognized net losses | <u>10,048</u> | <u>5,666</u> |
| Accrued pension cost | <u>\$ 10,048</u> | <u>\$ 7,947</u> |
| Vested benefits | <u>\$ (5,421)</u> | <u>\$ (5,111)</u> |

Actuarial Assumptions

| | 2006 | 2005 |
|--|-------------|-------------|
| Discount rate used in determining present values | 2.75% | 3.25% |
| Future salary increase rate | 2.50% | 2.00% |
| Expected rate of return on plan assets | 2.75% | 3.25% |

Summary of changes in the pension fund is as follows:

| | 2006 | 2005 |
|---------------------|-----------------|-----------------|
| Contribution | <u>\$ 4,237</u> | <u>\$ 4,994</u> |
| Payment of benefits | <u>\$ -</u> | <u>\$ 2,197</u> |

17. STOCKHOLDERS' EQUITY

Capital Stock

The Corporation's authorized capital is \$3,000,000 thousand and \$2,600,000 thousand at December 31, 2006 and 2005 (\$10.00 par value per share). As of December 31, 2006, the Corporation's outstanding capital stock was \$2,056,983 thousand divided into 205,698 thousand shares at \$10.00 par value each. Capital stock consists of the following:

| | |
|--------------------------------------|--------------------|
| Initial cash subscription | \$ 3,100 |
| Additional cash subscription | 540,080 |
| Stock dividends from earnings | 1,109,049 |
| Stock dividends from capital surplus | 127,693 |
| Employee stock option | 65,840 |
| Convertible bonds | <u>211,221</u> |
| | <u>\$2,056,983</u> |

Employee Stock Options

The Corporation's employee stock option plans were issued in October 2001, April 2002 and October 2002; the maximum number of units authorized to be granted was 3,500, 1,500 and 4,000, respectively, with each unit eligible to subscribe to one thousand common shares when exercisable. The option may be granted to qualified employees of the Corporation or any of its domestic or foreign subsidiaries. The options of all the plans are valid for five years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of the Corporation's common shares listed on the TSE on the grant date.

Information about outstanding stock options for the years ended December 31, 2006 and 2005 was as follows:

| | <u>2006</u> | | <u>2005</u> | |
|-------------------------------|--------------|--|----------------|--|
| | Units | Weighted Average Exercise Price | Units | Weighted Average Exercise Price |
| Employee Stock Options | | | | |
| Outstanding, beginning | 4,129 | \$ 17.0 | 7,935 | \$ 17.0 |
| Current issuance | - | - | - | - |
| Current exercise | (3,607) | 19.3 | (1,912) | 17.1 |
| Current cancel | <u>(192)</u> | - | <u>(1,894)</u> | - |
| Outstanding, ending | <u>330</u> | | <u>4,129</u> | |
| Exercisable options, ending | <u>330</u> | | <u>2,754</u> | |

As of December 31, 2006, information about outstanding and exercisable options was as follows:

| Range of Exercise Price (NT\$) | Options Outstanding | | | Options Exercisable | |
|--------------------------------|----------------------------------|--|--|----------------------------------|--|
| | Number of Options (In Thousands) | Weighted Average Remaining Contractual Life (In Years) | Weighted Average Exercise Price (NT\$) | Number of Options (In Thousands) | Weighted Average Exercise Price (NT\$) |
| \$17.00~\$13.1 | - | - | \$16.2 | - | \$13.1 |
| \$34.10~\$28.9 | 144 | 0.25 | 28.9 | 144 | 28.9 |
| \$17.60~\$14.4 | <u>186</u> | 0.82 | 16.4 | <u>186</u> | 14.4 |
| | <u>330</u> | | | <u>330</u> | |

No compensation cost was recognized under intrinsic value method for the years ended December 31, 2006 and 2005. The assumptions and pro forma results of the Corporation for the year ended December 31, 2006 would have been as follows:

Assumptions

| | |
|-------------------------|-------------|
| Expected dividend yield | - |
| Expected volatility | 46.75% |
| Risk free interest rate | 1.92% |
| Expected life | 3.875 years |

| | 2006 | 2005 |
|--|------------|------------|
| Net income | | |
| Net income as reported | \$ 842,241 | \$ 480,468 |
| Pro forma net income | 834,539 | 449,496 |
| Earnings per share (EPS) - after income tax (in dollars) | | |
| Basic EPS as reported | \$ 4.13 | \$ 2.73 |
| Pro forma basic EPS | \$ 4.11 | \$ 2.55 |
| Diluted EPS as reported | \$ 3.83 | \$ 2.64 |
| Pro forma diluted EPS | \$ 3.81 | \$ 2.47 |

Capital Surplus

Capital surplus can only be used to offset a deficit under the Corporation Law. However, the capital surplus generated from donations and the excess of the issue price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which is restricted to a certain percentage of the paid in common stock of the Corporation. Capital surplus consisted of the following:

| | <u>December 31</u> | |
|----------------------------|--------------------|-------------------|
| | <u>2006</u> | <u>2005</u> |
| Additional paid-in capital | \$ 290,248 | \$ 290,248 |
| Employee stock option | 54,449 | 20,939 |
| Convertible bonds | 188,779 | 180,213 |
| Warrants | <u>39,680</u> | <u>-</u> |
| | <u>\$ 573,156</u> | <u>\$ 491,400</u> |

Earnings Distribution and Dividend Policy

Based on the Company Law and the Corporation's Articles of Incorporation, from annual net income less any prior years' deficit, 10% should be appropriated as legal reserve. The remaining amount may be fully or partially distributed for dividends, with the stockholders' approval, according to the following percentages:

- (a) Employee bonus - 3% to 15%
- (b) Directors and supervisors' remuneration - 2%

Stock bonuses to employees include subsidiary employees who meet certain criteria set by the board of directors.

Dividends are recommended by the board of directors in accordance with the Corporation's dividend policy. Under this policy, industry trend and growth should be evaluated, investment opportunities should be fully understood, and proper capital adequacy ratios should be considered in determining the dividend to be distributed. In addition, cash dividends should not be less than 20% of the total dividends to be appropriated.

A special capital reserve equivalent to the net debit balance of the components of stockholders' equity (for example, unrealized loss on long-term investments and cumulative translation adjustments, but excluding treasury stock) should be allocated from unappropriated earnings under the regulations promulgated by the ROC Securities and Futures Bureau (SFB), formerly known as the Securities and Futures Commission before July 1, 2004. Any special reserve appropriated may be reversed to the extent that the net debit balance reverses.

Legal reserve should be appropriated until its amount equals the Corporation's paid-in capital. It can be used to offset deficit. When legal reserve reaches 50% of paid-in capital, up to one half of this reserve may be transferred to capital stock.

Under the Integrated Income Tax System that became effective on January 1, 1998, the ROC resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by the Corporation on earnings generated since January 1, 1998.

The appropriation of the 2005 and 2004 earnings was approved in the stockholders' meeting on June 15, 2005 and June 13, 2004, respectively. The appropriations and dividends per share are as follows:

| | <u>Appropriation of Earnings</u> | | <u>Dividends Per Share (NT\$)</u> | |
|--|----------------------------------|-----------------------------|-----------------------------------|-----------------------------|
| | <u>For Fiscal Year 2005</u> | <u>For Fiscal Year 2004</u> | <u>For Fiscal Year 2005</u> | <u>For Fiscal Year 2004</u> |
| Legal reserve | \$ 48,047 | \$ 25,815 | \$ - | \$ - |
| Cash dividends | 188,909 | 82,404 | 1.0 | 0.50 |
| Stock dividends | 113,345 | 82,405 | 0.6 | 0.50 |
| Employees' bonus - stock | 34,347 | 18,728 | - | - |
| Remuneration to directors and supervisors - cash | 6,869 | 3,746 | - | - |

The amounts of the above appropriations of earnings for 2005 and 2004 are consistent with the resolutions of the meetings of the Board of Directors. However, the Company Law prescribes that TXC Corporation, as a holder of treasury stock, shall not participate in the appropriation of earnings. Therefore, the actual cash dividend per share and stock dividend per share are slightly more than those in the aforementioned resolutions. If the above bonus to employees, directors and supervisors had been paid entirely in cash and charged against earnings for 2005 and 2004, the after income tax basic earnings per share for the years ended December 31, 2005 and 2004 would have decreased from NT\$2.73 to NT\$2.50 and NT\$1.63 to NT\$1.49, respectively. The shares distributed as bonus to employees represented 1.84% and 1.16% of the Corporation's total outstanding common shares as of December 31, 2005 and 2004, respectively.

As of March 5, 2007, the board of directors of TXC Corporation has not resolved the appropriation of 2006 earnings. The above information on the earnings appropriation can be accessed online through the Market Observation Post System (MOPS) on the Web site of the Taiwan Stock Exchange (<http://emops.tse.com.tw>).

18. INCOME TAX

The reconciliation of imputed income tax on pretax income at statutory tax rate to income tax expense was as follows:

| | <u>Years Ended December 31</u> | |
|--|--------------------------------|------------------|
| | <u>2006</u> | <u>2005</u> |

| Deferred income tax liabilities, noncurrent | | |
| Investment income | <u>(48,512)</u> | <u>(17,140)</u> |
| Net deferred income tax assets, noncurrent | <u>\$ 52,394</u> | <u>\$ 75,261</u> |

The Corporation's investment tax credits as of December 31, 2006 for income tax purposes were as follows:

| Regulatory Basis of Tax Credits | Item | Total Creditable Amount | Remaining Creditable Amount | Expiry Year |
|-------------------------------------|--|-------------------------------|-----------------------------------|----------------|
| Statute for Upgrading Industries | Purchase of machinery and equipment | \$ 77,341 | \$ 48,523 | 2010 |
| | Research and development expenditures | 119,890 | 74,606 | 2010 |
| | Personnel training | <u>1,721</u> | <u>\$ 1,367</u> | 2010 |
| | | <u>\$ 198,952</u> | <u>\$ 124,496</u> | |

The sales generated from the following expansion and construction of the Corporation's factories is exempt from income tax:

| | Tax-Exemption Period |
|----------------------------------|----------------------|
| Acquisition of equipment in 2003 | 2004 to 2008 |
| Acquisition of equipment in 2004 | 2005 to 2009 |

The Corporation's income tax returns up to 2002 have been examined and approved by the tax authorities.

According to the amended Income Tax Law, unappropriated earnings are subject to 10% tax. The 10% tax will be used as a reduction of the stockholders income tax expense in the year when dividends are distributed. The information of imputation credit accounts ("ICA") were as follows:

| | <u>December 31</u> | |
|----------------------------|----------------------------|--------------------------|
| | 2006 | 2005 |
| Balance of ICA | <u>\$ 15,370</u> | <u>\$ 26,069</u> |
| | 2006 (Estimate) | 2005 (Actual) |
| Imputation tax credit rate | 9.18% | 10.88% |
| | <u>December 31</u> | |
| | 2006 | 2005 |
| Undistributed earnings | | |
| Until 1997 | \$ - | \$ - |
| From 1998 and thereafter | <u>978,720</u> | <u>493,909</u> |
| | <u>\$ 978,720</u> | <u>\$ 493,909</u> |

19. PERSONNEL, DEPRECIATION AND AMORTIZATION EXPENSES

The Corporation's personnel, depreciation, and amortization expenses for the years ended December 31, 2006 and 2005 were summarized as follows:

| Expense Item | Year Ended December 31 | | | | | |
|----------------------------|-----------------------------------|--|-----------|-----------------------------------|--|-----------|
| | 2006 | | | 2005 | | |
| | Classified as Cost of Sales | Classified as Operating Expenses | Total | Classified as Cost of Sales | Classified as Operating Expenses | Total |

21. DISCLOSURES FOR FINANCIAL INSTRUMENTS

Fair values of assets and liabilities were as follows:

| | December 31 | | | |
|--|---------------|-------------------------|---------------|-------------------------|
| | 2006 | | 2005 | |
| | Book Value | Estimated Fair Value | Book Value | Estimated Fair Value |
| Assets | | | | |
| Cash and cash equivalents | \$ 797,134 | \$ 797,134 | \$ 212,986 | \$ 212,986 |
| Available-for-sale financial assets, current | 150,183 | 150,183 | 60,000 | 60,004 |
| Notes and accounts receivable, net | 1,725,036 | 1,725,036 | 1,274,303 | 1,274,303 |
| Investments accounted for using equity method | 1,143,443 | 1,143,443 | 853,083 | 853,083 |
| Financial assets carried at cost | 3,000 | 3,000 | 3,000 | 3,000 |
| Liabilities | | | | |
| Short-term loans | 205,275 | 205,275 | 165,208 | 165,208 |
| Notes and accounts payable | 801,823 | 801,823 | 608,690 | 608,690 |
| Accrued expenses | 155,386 | 155,386 | 128,544 | 128,544 |
| Bonds payable | 763,311 | 763,311 | 20,499 | 20,499 |
| Long-term loans (including current portion) | 410,000 | 410,000 | 470,000 | 470,000 |
| Derivative financial instruments | | | | |
| Interest rate swap contract | | | | |
| Taiwan | (18,944) | (18,944) | - | - |
| Forward contract | | | | |
| Taiwan | (1,744) | (1,744) | - | - |

Methods and assumptions used in the determination of fair values of financial instruments were as follows:

- (a) The fair values of short-term financial instruments such as cash and cash equivalents, receivables, payables and short-term loans are based on their carrying amounts because of their short maturities. The carrying amounts of these financial instruments approximate their fair values.
- (b) Fair values of available-for-sale financial assets were based on their quoted market price on the balance sheet date.
- (c) Fair values of derivatives were determined using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.
- (d) Because there is no active market and a reliable fair value could only be verified at a more than reasonable cost, the fair values of investments in unlisted stocks carried at cost or accounted for using equity method can not be estimated.
- (e) The fair value of the long-term loans and bonds payable was determined using the discounted value of expected cash flows, which approximates their carrying amount.

Fair value of assets and liabilities based on:

| | Quoted Market Price | | Valuation Techniques Incorporating Estimates and Assumptions | |
|---|---------------------|--------|--|------------|
| | December 31 | | December 31 | |
| | 2006 | 2005 | 2006 | 2005 |
| Assets | | | | |
| Cash and cash equivalents | \$ - | \$ - | \$ 797,134 | \$ 212,986 |
| Notes and accounts receivable, net | - | - | 1,725,036 | 1,274,303 |
| Available-for-sale financial assets, current | 150,183 | 60,000 | - | - |
| Investments accounted for using equity method | - | - | 1,143,443 | 853,082 |
| Financial assets carried at cost | - | - | 3,000 | 3,000 |
| Liabilities | | | | |
| Short-term loans | - | - | 205,275 | 165,208 |
| Notes and accounts payable | - | - | 801,823 | 608,690 |
| Accrued expenses | - | - | 155,386 | 128,544 |
| Financial liabilities at fair value through profit or loss, current | - | - | 1,744 | - |
| Bonds payable | - | - | 763,311 | 20,499 |
| Long-term loans (including current portion) | - | - | 410,000 | 470,000 |
| Financial liabilities at fair value through profit of loss, noncurrent | - | - | 18,944 | - |

Gain recognized from the changes in fair value of derivatives estimated using valuation techniques was \$4,079 thousand for the year ended December 31, 2006.

As of December 31, 2006, financial liabilities exposed to cash flow interest rate risk were \$18,944 thousand.

Information about financial risks was as follows:

- (a) Market risk: The Corporation's market risk refers to the uncertainties due to exchange rate fluctuations. Gains or losses on forward exchange contracts are likely to offset the gains or losses on foreign-currency assets or liabilities. Interest rate risk refers to the risk arising from interest rate fluctuations in the market. The Corporation does not have significant price risk.
- (b) Credit risk: Credit risk represents the potential loss that would be incurred by the Corporation if the counter-parties or third-parties breached the contracts. Contracts with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the foregoing derivative financial instruments are reputable financial institutions, business organizations, and government agencies. Management believes its exposure to default by those parties is low.
- (c) Liquidity risk: The Corporation has sufficient operating capital to meet cash needs upon settlements of derivative financial instruments. Therefore, the cash flow risk is low.

22. RELATED-PARTY TRANSACTIONS

The related parties were as follows:

| Related Party | Relationship with the Corporation |
|---|---|
| Tai-Shing Electronics Components Corporation (Tai-Shing) | Chairman is the Corporation's general manager |
| TXC Technology Inc. | Wholly owned subsidiary |
| TXC Japan Corporation | Wholly owned subsidiary |
| Taiwan Crystal Technology International Ltd. (TCTI) | Wholly owned subsidiary |
| Growing Profits Trading Ltd. (GPT) | Subsidiary's equity-method investee |
| TXC (Ningbo) Corporation (NGB) | Subsidiary's equity-method investee |

Major transactions with related parties were summarized below:

Purchases of Inventory and Processing Costs

| | Years Ended December 31 | | | |
|-----------------------|-------------------------|-----------------------------------|------------------|-----------------------------------|
| | 2006 | | 2005 | |
| | Amount | % to Total Account Balances | Amount | % to Total Account Balances |

| | TXC Japan Corporation | <u>2</u> | - | <u>-</u> | <u>-</u> |
| | | <u>\$ 2</u> | <u>-</u> | <u>\$ 356</u> | <u>-</u> |

In the year ended December 31, 2005, the Corporation sold its equipment to NGB through GPT, at the net book value of \$38,955 thousand and price of \$38,951 thousand or loss of \$4 thousand.

In the years ended December 31, 2006 and 2005, the Corporation invested in NGB through TCTI in the form of machinery and equipment at their net book value of \$9,723 thousand and \$23,668 thousand, respectively, and have no disposal gain or loss.

As of December 31, 2005, the Corporation's guarantee for NGB's loans amounted to \$97,365 thousand.

23. PLEDGED ASSETS

As of December 31, 2006 and 2005, the following assets had been pledged at their book values to secure short-term loans, long-term debts and commercial paper issued:

| | 2006 | 2005 |
|-------------------------------|-------------------|-------------------|
| Property, plant and equipment | | |
| Land | \$ 165,994 | \$ 165,994 |
| Buildings, net | 77,299 | 79,224 |
| Machinery and equipment, net | 351,144 | 312,343 |
| Restricted deposit | <u>50</u> | <u>-</u> |
| | <u>\$ 594,487</u> | <u>\$ 557,561</u> |

24. COMMITMENT AND CONTINGENCIES

The Corporation's commitments and contingencies as of December 31, 2006, which were not shown in the financial statements, were as follows:

Unit: In Thousands

| Commitment | Contract Price | Paid Up | Not Yet Paid |
|-----------------------|----------------|-----------|--------------|
| Building construction | \$282,600 | \$206,735 | \$75,865 |

Guarantee for short-term loan and long-term loan is described in Note 15.

Guarantee for customs tax amounted to about \$15,000 thousand.

Unused letters of credit was about JP¥255,324 thousand.

As of December 31, 2005, the Corporation had derivative financial instruments. Please refer to Note 21.

As of December 31, 2006, the Corporation's guarantee for loan of its subsidiary amounted to \$366,552.

25. SEGMENT, GEOGRAPHIC AREA, EXPORT SALES AND MAJOR CUSTOMER INFORMATION

Segment Information

No segment information.

Geographic Area Information

No geographic area information.

Export Sales

| Area | 2006 | 2005 |

D. Consolidated Financial Statement for the Parent Company and its Subsidiaries for the most recent year, Certified by a CPA

TXC Corporation and SUBSIDIARIES

**Consolidated Financial Statements for the
Years Ended December 31, 2006 and 2005 and
Independent Auditors' Report**

REPRESENTATION LETTER

The entities included in the combined financial statements of TXC Corporation as of and for the year ended December 31, 2006, which were prepared in conformity with the Regulations Governing the Preparation of Combined Business Report and Combined Financial Statements of a Public Company and its Affiliated Enterprises, are the same as the entities included in the consolidated financial statements prepared in conformity with the revised Statement of Financial Accounting Standards No. 7, "Consolidated Financial Statements." The information needed to be disclosed in the combined financial statements is included in the consolidated financial statements. Thus, TXC Corporation and subsidiaries did not prepare a separate set of combined financial statements.

INDEPENDENT AUDITORS' REPORT

The Board of Directors and Stockholders
TXC Corporation

We have audited the accompanying consolidated balance sheets of TXC Corporation and subsidiaries (the "Corporation") as of December 31, 2006 and 2005, and the related consolidated statements of income, changes in stockholders' equity, and cash flows for the years then ended. These consolidated financial statements are the responsibility of the Corporation's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with the Rules Governing the Audit of Financial Statements by Certified Public Accountants and auditing standards generally accepted in the Republic of China. Those rules and standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the consolidated financial statements referred to above present fairly, in all material respects, the financial position of TXC Corporation and subsidiaries as of December 31, 2006 and 2005, and the results of their operations and their cash flows for the years then ended, in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guidelines Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the Republic of China.

As stated in Note 3 to the consolidated financial statements, TXC Corporation and subsidiaries adopted the Statement of Financial Accounting Standards No. 35, "Accounting for Impairment of Assets," on January 1, 2005.

As stated in Note 3 to the consolidated financial statements, on January 1, 2006, TXC Corporation and subsidiaries adopted the newly released Statement of Financial Accounting Standards (SFAS) No. 34, “Accounting for Financial Instruments,” and No. 36, “Disclosure and Presentation of Financial Instruments” and related revisions of previously released SFASs.

March 5, 2007

Notice to Readers

The accompanying consolidated financial statements are intended only to present the consolidated financial position, results of operations and cash flows in accordance with accounting principles and practices generally accepted in the Republic of China and not those of any other jurisdictions. The standards, procedures and practices to audit such consolidated financial statements are those generally accepted and applied in the Republic of China.

For the convenience of readers, the auditors’ report and the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the Republic of China. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language auditors’ report and consolidated financial statements shall prevail.

The accompanying notes are an integral part of the consolidated financial statements.

(With Deloitte & Touche audit report dated March 5, 2007)

TXC CORPORATION AND SUBSIDIARIES

NOTES TO CONSOLIDATED FINANCIAL STATEMENTS

YEARS ENDED DECEMBER 31, 2006 AND 2005

(In Thousands of New Taiwan Dollars, Unless Stated Otherwise)

1. ORGANIZATION AND OPERATIONS

TXC Corporation (TXC) was incorporated on December 28, 1983 under the Company Law and other related regulations of the Republic of China (ROC).

On July 31, 2002, TXC was authorized by the Securities and Futures Commission of the Ministry of Finance of ROC to become a public listed company. On August 26, 2002, TXC's shares began to be traded on the Taiwan Stock Exchange.

TXC mainly produces and sells crystals, crystal oscillator and SAW (surface acoustic wave) filters and Timing module (TM).

TXC and its consolidated subsidiaries, listed in Note 2, are hereinafter collectively referred to as the "Corporation."

As of December 31, 2006 and 2005, The Corporation had 1,656 and 1,367 employees, respectively.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Basis of Presentation

The accompanying consolidated financial statements have been prepared in conformity with the Guidelines Governing the Preparation of Financial Reports by Securities Issuers, requirements of the Business Accounting Law and Guideline Governing Business Accounting relevant to financial accounting standards, and accounting principles generally accepted in the ROC. In conformity with these guidelines and principles, the Corporation is required to make certain estimates and assumptions that could affect the amounts of the allowance for doubtful accounts, allowance for inventory devaluation, depreciation, and pension, etc. Actual results could differ from these estimates.

For the convenience of readers, the accompanying consolidated financial statements have been translated into English from the original Chinese version prepared and used in the ROC. If there is any conflict between the English version and the original Chinese version or any difference in the interpretation of the two versions, the Chinese-language financial statements shall prevail.

The Corporation's significant accounting policies are summarized as follows:

Principles of Consolidation

The accompanying consolidated financial statements include the accounts of TXC and its subsidiaries. All significant intercompany balances and transactions are eliminated upon consolidation.

The consolidated entities were as follows:

| Name of Investor | Name of Investee | Business Nature | Percentage of Ownership at December 31, 2006 | Percentage of Ownership at December 31, 2005 |
|------------------|--|---|--|--|
| TXC Corporation | Taiwan Crystal Technology International Limited ("TCTI") | Investment holding | 100% | 100% |
| | TXC Technology, Inc. | Marketing activities | 100% | 100% |
| | TXC Japan Corporation | Marketing activities | 100% | 100% |
| TCTI | Growing Profits Trading Ltd. ("GPT") | National trading | 100% | 100% |
| | TXC (NGB) Corporation ("NGB") | Manufacture and sales of electronics products | 100% | 100% |

- a. TCTI was incorporated on December 23, 1998 in Samoa.
- b. TXC Technology, Inc. was incorporated on December 1, 2000 in California, U.S.A.
- c. TXC Japan Corporation was incorporated on September 13, 2005 in Yokhoma, Japan.
- d. GPT was incorporated on March 9, 1999 in the British Virgin Islands.
- e. NGB was incorporated on March 12, 1999 in Ningbo Economic Technical Development Zone in China.

Current/Noncurrent Assets and Liabilities

Current assets include cash and cash equivalents and those expected to be converted to cash, sold or consumed within 12 months from the balance sheet date. Property, plant and equipment, intangible assets and those not classified as current assets are noncurrent assets. Current liabilities are obligations incurred for operating purposes and expected to be paid or settled within 12 months from the balance sheet date. All other liabilities not classified as current liabilities are noncurrent liabilities.

Cash Equivalents

Government bonds acquired under resell agreements and having maturities of up to three months from the date of purchase are classified as cash equivalents.

Financial Assets/Liabilities at Fair Value through Profit or Loss

Financial instruments at fair value through profit or loss include financial assets or liabilities held for trading and those designated on initial recognition to be measured at fair value with fair value changes recognized in profit or loss. The financial instruments are recognized and carried at fair value plus transaction costs with fair value changes recognized in profit or loss. A regular way purchase or sale of financial instruments is recognized and derecognized using transaction date accounting.

Fair value is estimated using valuation techniques incorporating estimates and assumptions that are consistent with prevailing market conditions. Derivatives that do not meet the criteria for hedge accounting are recognized at fair value. When the fair value is a positive amount, the derivative is recognized as a financial asset; when the fair value is a negative amount, the derivative is recognized as a financial liability.

Available-for-Sale Financial Assets

Available-for-sale financial assets are recognized and carried at fair value plus transaction costs that are directly attributable to the acquisition. The changes in fair value are excluded from earnings and reported as a separate component of stockholders' equity. The accumulated gains or losses are recognized in earnings when the financial asset is derecognized from the balance sheet. A regular way purchase or sale of financial asset is recognized and derecognized using transaction date accounting.

The fair value of investments in open-end funds is the year-end net asset value of the funds.

If there is objective evidence that a financial asset is impaired, a loss is recognized. If, in a subsequent period, the amount of the impairment loss decreases, for equity securities, the previously recognized impairment loss is reversed to the extent of the decrease and recorded as an adjustment to shareholders' equity; for debt securities, the amount of the decrease is recognized in earnings, provided that the decrease is clearly attributable to an event which occurred after the impairment loss was recognized.

Revenue Recognition and Allowance for Doubtful Accounts

Revenue is recognized when ownership and risk of loss or liability for change to products are transferred to customers, usually upon shipment. Sales returns and discounts, which take into consideration customers' complaints and past experiences, are accrued in the same year of sales.

Allowance for doubtful accounts is provided on the basis of management's evaluation of the collectibility of receivables, past loss experience and pertinent factors.

Inventories

Inventories are stated at the lower of cost or market. Cost is determined using the weighted average method, and market value is based on net realizable value of finished goods, work in process and merchandise and on replacement cost of raw materials.

Financial Assets Carried at Cost

Investments that do not have a quoted market price in an active market and whose fair value cannot be reliably measured are carried at original cost, such as non-publicly traded stocks.

Cash dividends are recognized as dividend income on the ex-dividend date, but are accounted for as reductions to the original cost of investments if such dividends are declared on the earnings of investees attributable to periods prior to the purchase of investments. Stock dividends are not recognized as current income but are accounted for only as an increase in the number of shares held. The cost per share is recalculated based on the new number of shares.

If there is objective evidence that a financial asset is impaired, a loss is recognized. No recording of a subsequent recovery in fair value is allowed.

Investments Accounted for Using Equity Method

Long-term investments in which the Corporation owns 20% or more of an investee's outstanding voting shares or exercises significant influence on the investee are accounted for by the equity method.

Gains or losses on sales to investees over which the Corporation has a controlling interest are deferred until such gains or losses are realized through the subsequent sale of the related products to third parties.

Gains or losses on sales of investee to the Corporation are deferred in proportion to the Corporation's ownership percentage in the investees until they are realized through transactions with third parties.

Property, Plant and Equipment

Property, plant and equipment are stated at cost less accumulated depreciation. Expenditures that would increase the value or extend the useful lives of the property, plant, equipment are capitalized. Repairs and maintenance are expensed currently. Interest incurred for the construction of major facilities is capitalized.

Depreciation is calculated using the straight-line method over the estimated useful lives of: buildings - 5 to 60 years; machinery and equipment - 3 to 10 years; transportation equipment - 3 to 6 years; miscellaneous equipment - 5 to 15 years.

Upon sale or disposal of property, plant and equipment, the related cost and accumulated depreciation are removed from the accounts, and any gain or loss is credited or charged to nonoperating income.

Asset Impairment

An impairment loss should be recognized whenever the aggregate carrying amount of specific assets exceeds their recoverable amount, and this impairment loss should be charged to current income.

An impairment loss recognized in prior years may be reversed if there has been a subsequent recovery in the estimates used to determine recoverable amount since the last impairment loss was recognized. However, an impairment loss is reversed only to the extent that it does not increase the carrying amount of an asset above the carrying amount that would have been determined for the asset (net of depreciation) had no impairment loss been recognized in prior years.

Employee Stock Options

Employee stock option plans that are amended or have options granted on or after January 1, 2004 must be accounted for in accordance with the interpretations issued by the Accounting Research and Development Foundation. Thus, for its option plans, the Corporation adopted the intrinsic value method under which any compensation cost is charged to expense over the vesting period.

Pension Plan

The Corporation's accounting for pensions is in accordance with the generally accepted accounting standards for pension and related regulations. Net pension cost and related asset or liabilities are determined actuarially.

Convertible Bonds

Convertible bonds that were issued before December 31, 2005 are classified as current or noncurrent according to the redemption dates. When the Corporation converts bonds to shares of stock, it writes off the sum of the balances of the carrying value of the bonds, redemption premium and issuance costs. The common stock exchange certificate (capital stock) is then valued at its carrying amount net of the amounts written off, and the difference between the net amount and the par value of the certificate is recognized as capital surplus.

For convertible bonds issued on or after January 1, 2006, the carrying value of host contract is recorded in total proceeds from the issuance less the (1) fair value of embedded derivatives and (2) issuance costs allocated to bond payable under the initially recognized amount. When the fair value of the bonds is subsequently measured at amortized cost using the effective interest rate method, the related interest expense or redemption gain is recognized as loss or earnings. When the bondholder exercises the conversion option before bond maturity, the adjusted carrying value of the debt components (bonds and embedded derivatives are included) is credited to a capital stock accounts.

Income Tax

The Corporation adopted inter-period tax allocation. Deferred income taxes are recognized for tax effects of temporary differences and unused tax credits. Valuation allowance is provided for deferred income tax assets that are not certain to be realized. Deferred tax assets and liabilities are classified as current or noncurrent accounts according to the classifications of their related assets and liabilities for financial reporting. If deferred tax assets and liabilities cannot be related to the assets or liabilities in the financial statement, they are classified as current or noncurrent on the basis of the length of the reversal or realization period.

Deferred income tax liabilities derived from the temporary differences between the carrying amounts and tax base of long-term investments are not recognized, if it is expected that a foreign subsidiary will not distribute its earnings in the future and the difference will permanently exist.

The Corporation adopts the flow-through method for income tax credits resulting from the purchase of certain equipment for automation of production or production technology, research and development expenditures, personnel training, etc.

Adjustments of prior years' tax liabilities are added to or deducted from the current year's tax expense.

Income tax (10%) on undistributed earnings generated since 1998 is recorded as expense in the year when the stockholders resolve to retain these earnings.

TCTI and GPT are tax-exempted companies incorporated in Samoa and the British Virgin Islands.

The Corporation's other subsidiaries, including TXC Technology, Inc., TXC Japan Corporation and NGB, are subject to their respective local country's income tax law.

Foreign-currency Transactions

Transactions negotiated in foreign currencies (except derivative transactions) are recorded in New Taiwan dollars at the exchange rates in effect on the transaction dates. Gains or losses caused by applying prevailing exchange rates when foreign-currency receivables and payables are settled, are credited or charged to current income. Balance sheet date balances of assets and liabilities denominated in foreign currencies are restated at the balance sheet date exchange rates, and any resulting gains or losses are credited or charged to current income.

The financial statements of consolidated foreign subsidiaries and other equity-method foreign investees are translated from their respective local currencies into New Taiwan dollars as follows:

- Assets and liabilities - at the rate as of the balance sheet date;
- Stockholders' equity accounts - at the historical rate, except for the beginning balance of the retained earnings, which is carried at the translated amount of the previous period;
- Income statement accounts - at the weighted-average rate of the current period.

Exchange gains or losses resulting from the above financial statement translation are recorded as "translation adjustments," which are presented as a separate component of stockholders' equity.

The above prevailing exchange rates are based on the Interbank Spot Market closing rates of Central Bank of China.

Reclassifications

Certain accounts for the year ended December 31, 2005 have been reclassified to be consistent with the presentation of the financial statements for the year ended December 31, 2006.

3. CHANGES IN ACCOUNTING PRINCIPLES

On January 1, 2006, the Corporation adopted the newly released Statement of Financial Accounting Standards No. 34 "Accounting for Financial Instruments" and No. 36 "Disclosure and Presentation for Financial Instruments" and related revisions of previously released SFASs.

- Effect of adopting the newly released SFASs and related revisions of previously released SFASs

The Corporation had properly categorized its financial assets and liabilities upon initial adoption of the newly released SFASs. The adjustments made to the carrying amounts of the financial instruments categorized as financial assets or financial liabilities at fair value through profit or loss were included in the cumulative effect of changes in accounting principles; on the other hand, the adjustments made to the carrying amounts of those categorized as available-for-sale financial assets were recognized as adjustments to stockholders' equity.

The effect of adopting the newly released SFASs is summarized as follows:

| | Recognized as Cumulative Effect of Changes in Accounting Principles (Net of Tax) | Recognized as a Separate Component of Stockholders' Equity (Net of Tax) |
|--|---|--|
| Available-for-sale financial assets | \$ - | \$ 2 |
| Financial liabilities at fair value through profit or loss, noncurrent | <u>(17,267)</u> | <u>-</u> |
| | <u>\$ (17,267)</u> | <u>\$ 2</u> |

The adoption of the newly released SFASs resulted in a cumulative effect of changes in accounting principles of NT\$17,267 thousand (net of tax), a decrease in net income of NT\$17,267 thousand, and a decrease in after income tax basic earnings per share of NT\$0.08 dollar, for the year ended December 31, 2006.

b. Reclassifications

Upon the adoption of SFAS No. 34, certain accounts in the financial statements as of and for the year ended December 31, 2005 were reclassified to conform with the financial statements as of and for the year ended December 31, 2006. The previously issued financial statements as of and for the year ended December 31, 2005 need not be restated.

Certain accounting policies prior to the adoption of the newly released SFASs are summarized as follows:

1) Short-term investments

Marketable securities are initially stated at their acquisition cost. Stock dividends received from invested companies are not recognized as investment income but are merely noted as an increase in the number of shares held. The cost of stocks and mutual funds sold is determined using the weighted-average method. At year-end, all short-term investment are evaluated at the lower of aggregate cost or market value. Gain on value recovery or loss on value decline at year-end is recorded currently. The market values of investments in listed closed-end funds, listed stocks, and stocks traded over the counter are their respective average closing prices in the last month of the year. The market value of investments in open-end funds is the year-end net asset value of the funds.

2) Long-term investments

Long-term investments in which the Corporation exercises significant influence on the investees are accounted for by the equity method. Under this method, the investments are stated at cost and subsequently adjusted for the Corporation's share in the net earnings or other changes in stockholders' equity of the investee companies. Cash dividends received are recorded as reductions of the investment.

Other long-term investments in which the Corporation has no significant influence on the investees are accounted for by the cost method.

3) Derivative financial instruments

For derivative financial instruments (forward exchange and currency option contracts), which are used to hedge risk exposures on foreign-currency assets or liabilities, any resulting gains or losses may either be credited or charged to current income or reported as adjustments to the carrying amount of the hedged assets or liabilities. For forward exchange contracts used to hedge identifiable foreign-currency sales commitments and the contract settlement dates are ahead of the actual selling dates, any exchange gain or loss should be deferred to the actual sales transaction date and recorded as an increase in the transaction price if the commodity purchase price is lower than the actual selling price. But if the exchange loss will result in a loss on actual sales because the actual selling price will become lower than the purchase price, the exchange loss should not be deferred.

Certain accounts in financial statements as of and for the year ended December 31, 2005 have been reclassified to conform to the 2006 classifications prescribed by the newly released and revised SFAS. The reclassifications of the whole or a part of the account balances of certain accounts are summarized as follows:

| | Before Reclassification | After Reclassification |
|-------------------------------------|------------------------------------|-----------------------------------|
| <u>Balance sheet</u> | | |
| Short-term investments | \$ 60,000 | \$ - |
| Long-term investments | 3,000 | - |
| Available-for-sale financial assets | - | 60,000 |
| Financial assets carried at cost | <u>-</u> | <u>3,000</u> |
| | <u>\$ 63,000</u> | <u>\$ 63,000</u> |

The Corporation adopted the Statement of Financial Accounting Standards No. 35, "Accounting for Impairment of Assets" on January 1, 2005. As a result, the carrying value of idle assets decreased by \$11,309 thousand. The impairment loss was \$11,309 thousand for the year ended December 31, 2005.

4. CASH AND CASH EQUIVALENTS

| | <u>December 31</u> | |
|---------------------------------------|--------------------|-------------------|
| | 2006 | 2005 |
| Cash on hand | \$ 2,038 | \$ 1,046 |
| Checking accounts and demand deposits | 286,677 | 241,729 |
| Time deposits | 116,711 | 16,557 |
| Cash equivalents | | |
| Bonds with repurchase rights | <u>495,000</u> | <u>-</u> |
| | <u>\$ 900,426</u> | <u>\$ 259,332</u> |

5. FINANCIAL LIABILITIES AT FAIR VALUE THROUGH PROFIT OR LOSS

| | <u>December 31</u> | |
|--|--------------------|-------------|
| | 2006 | 2005 |
| <u>Derivatives - financial assets</u> | | |
| Forward contracts | <u>\$ 163</u> | <u>\$ -</u> |
| <u>Derivatives - financial liabilities</u> | | |
| Forward contracts | <u>\$ 1,744</u> | <u>\$ -</u> |
| Interest rate swap contracts | <u>\$ 18,944</u> | <u>\$ -</u> |

The Corporation entered into derivative transactions during the years ended December 31, 2006 and 2005 to manage exposures related to foreign exchange rate and interest rate fluctuations.

Outstanding forward contracts as of December 31, 2006 and 2005:

| | Currency | Maturity | Contract Amount (In Thousands) |
|--------------------------|-----------------|--|---|
| <u>December 31, 2006</u> | | | |
| Sell | USD/NTD | January 9, 2007 to February 9, 2007 | US\$4,000/NT\$129,718 |
| Sell | USD/JPY | January 26, 2007 to February 15, 2007 | US\$4,500/JP¥527,888 |
| Sell | NTD/JPY | February 14, 2007 | NT\$8,268/JP¥30,000 |
| Sell | USD/RMB | January 31, 2007 to April 30, 2007 | US\$2,000/RMB15,570 |
| Sell | USD/JPY | January 16, 2007 | US\$86/JP¥10,000 |

Outstanding Interest rate swap contracts as of December 31, 2006:

| Maturity Date | Contract Amount (In Thousands) | Range of Interest Rates Paid | Range of Interest Rates Received |
|----------------------|---|-------------------------------------|---|
| August 12, 2010 | 300,000 | 3.68% | Rate on 90-day commercial paper |

Net gains arising from derivative financial instruments for the year ended December 31, 2006 was \$4,097 thousand.

6. AVAILABLE-FOR-SALE FINANCIAL ASSETS

| | <u>December 31</u> | |
|--------------|--------------------|------------------|
| | 2006 | 2005 |
| Mutual funds | <u>\$ 150,183</u> | <u>\$ 60,000</u> |

7. NOTES RECEIVABLE AND ACCOUNTS RECEIVABLE

| | <u>December 31</u> | |
|--|---------------------|---------------------|
| | 2006 | 2005 |
| Notes receivable from third parties | \$ 44,813 | \$ 85,839 |
| Less allowance for doubtful accounts | <u>(224)</u> | <u>(510)</u> |
| | <u>\$ 44,589</u> | <u>\$ 85,329</u> |
| Accounts receivable from third parties | \$ 1,810,313 | \$ 1,306,259 |
| Accounts receivable from related parties | <u>6,554</u> | <u>9,070</u> |
| | 1,816,867 | 1,315,329 |
| Less allowance for doubtful accounts | <u>(15,366)</u> | <u>(11,231)</u> |
| | <u>\$ 1,801,501</u> | <u>\$ 1,304,098</u> |

8. INVENTORIES

| | December 31 | |
|---|-------------------|-------------------|
| | 2006 | 2005 |
| Raw materials | \$ 160,020 | \$ 115,393 |
| Supplies | 11,816 | 8,907 |
| Work in-process | 149,247 | 151,915 |
| Finished goods | 223,293 | 164,736 |
| Merchandise inventories | 199,020 | 239,743 |
| Merchandise in transit | 24,178 | 44,433 |
| | 767,574 | 725,127 |
| Less allowance for decline in market value and obsolescence | <u>(32,395)</u> | <u>(19,554)</u> |
| | <u>\$ 735,179</u> | <u>\$ 705,573</u> |

9. FINANCIAL ASSETS CARRIED AT COST

| | December 31 | |
|----------------------------|-----------------|-----------------|
| | 2006 | 2005 |
| Non-publicly traded stocks | <u>\$ 3,000</u> | <u>\$ 3,000</u> |

10. PROPERTY, PLANT AND EQUIPMENT

| | December 31 | | | |
|--------------------------------------|---------------------|--------------------------|---------------------|---------------------|
| | Cost | Accumulated Depreciation | Carrying Value | Carrying Value |
| Land | \$ 157,040 | \$ - | \$ 157,040 | \$ 157,040 |
| Land - revaluation increment | 8,954 | - | 8,954 | 8,954 |
| Land improvements | 442 | 343 | 99 | 169 |
| Buildings | 457,775 | 156,191 | 301,584 | 319,479 |
| Machinery equipment | 2,703,090 | 937,706 | 1,765,384 | 1,535,270 |
| Transportation equipment | 9,698 | 4,210 | 5,488 | 3,216 |
| Miscellaneous equipment | 114,407 | 63,644 | 50,763 | 44,148 |
| Prepayments on purchase of equipment | 49,137 | - | 49,137 | 46,731 |
| Unfinished construction | 242,063 | - | 242,063 | 2,416 |
| | <u>\$ 3,742,606</u> | <u>\$ 1,162,094</u> | <u>\$ 2,580,512</u> | <u>\$ 2,117,423</u> |

See Note 22 for the details of property, plant and equipment pledged as collaterals.

Interest expense capitalized for the year ended December 31, 2006 amount to \$2,371 thousand, with interest rate of 2.63%.

11. IDLE ASSETS

| | December 31, 2006 | | |
|-------------------------|--------------------------|-----------------------------------|---------------------------|
| | Cost | Accumulated Impairment | Carrying Value |
| Land | \$ 2,253 | \$ - | \$ 2,253 |
| Buildings | 6,747 | 4,874 | 1,873 |
| Machinery and equipment | <u>10,239</u> | <u>10,239</u> | <u>-</u> |

| | <u>\$763,311</u> | <u>\$ 20,499</u> |

First Domestic Unsecured Convertible Corporate Bonds

On December 31, 2003, the Corporation issued first domestic unsecured convertible bonds with an aggregate face value of \$400,000 thousand and maturity on December 31, 2008. Nominal interest is 0%. Other details of the bond issuance are summarized as follows:

- (a) On the third and fourth anniversaries of the issuance date, bonds are redeemable at a price of 103.02% and 105.34%, respectively, of face value plus accrued interest. On maturity, bonds will be redeemed at face value.
- (b) During the period between three months after issuance and the 40th day before maturity, except for the period between the ex-dividend date and the date of record, holders can request for conversion of the bonds to the Corporation's common stock.
- (c) The original conversion price per share is NT\$20.00. The conversion price is subject to adjustment based on a certain formula if there are changes in outstanding shares or execution of conversion below market price.

Second Domestic Unsecured Convertible Corporate Bonds

On November 8, 2006, the Corporation issued second domestic unsecured convertible bonds with an aggregate value of \$800,000 thousand and maturity on November 8, 2011. Nominal interest is 0%. As of December 31, 2006, the Corporation's outstanding domestic unsecured convertible corporate bonds were \$800,000 thousand. According to Statement of Financial Accounting Standards No. 36, "Disclosure and Presentation of Financial Instruments," these domestic unsecured convertible bonds were separated into convertible options, equity (Note 16), and bonds payable, liability. Other details of the bond issuance are summarized as follows:

- (a) On the third anniversaries of the issuance date, bonds are redeemable at face value.
- (b) During the period between one month after issuance and the 40th day before maturity, the Corporation can redeem the bonds from holders at contracted price.
- (c) During the period between one month after issuance and the 10th day before maturity, except for the period between the ex-dividend date and the date of record, holders can request for conversion of the bonds to the Corporation's common stock.
- (d) The original conversion price per share is NT\$52.00. The conversion price is subject to adjustment based on a certain formula if there are changes in outstanding shares or execution of conversion below market price.

14. LONG-TERM LOANS

| Nature of Loans | Repayment Period | December 31 | |
|----------------------|---|-------------------|-------------------|
| | | 2006 | 2005 |
| Secured bank loans | Repayable in quarterly installments, maturing on August 31, 2008 | \$ 20,876 | \$ 70,320 |
| Unsecured bank loans | Repayable in quarterly installments, maturing on February 2, 2007 | - | 40,000 |
| Unsecured bank loans | Repayable at maturity on October 26, 2008 | 200,000 | 250,000 |
| Unsecured bank loans | Repayable at maturity on September 3, 2021 | 160,000 | - |
| Chinatrust loan | | <u>50,000</u> | <u>180,000</u> |
| | | 430,876 | 540,320 |
| Less current portion | | <u>(50,000)</u> | <u>(80,000)</u> |
| | | <u>\$ 380,876</u> | <u>\$ 460,320</u> |
| Interest rate (%) | | 2.15~5.85 | 0~5.85 |

See Note 22 for collateral on long-term loans.

As of December 31, 2006, the Corporation has issued to various banks promissory notes amounting to \$1,875,500 thousand to secure short-term and long-term loans.

On September 6, 2004, the Corporation signed a syndicated loan agreement for \$500,000 thousand with Chinatrust Commercial Bank and five other financial institutions. The syndicated loan can be separated into two parts and terms summarized as follows:

| | Credit Lines | Credit Amount | Credit Period | Interest Rate | Repayment Agreements |
|--------|-------------------|-------------------|--|---------------|---|
| First | \$ 300,000 | \$ 300,000 | Three years after the first drawdown date including additional one year. | 2.9611% | Six semiannual installments starting from one year after the first drawdown date. |
| Second | <u>200,000</u> | <u>50,000</u> | Three years after the first drawdown date. | 3.0579% | Lump sum on due date. |
| | <u>\$ 500,000</u> | <u>\$ 350,000</u> | | | |

15. PENSION PLAN

The Labor Pension Act (the Act) became effective on July 1, 2005, and the pension mechanism under the Act is deemed a defined contribution plan. Employees who were subject to the Labor Standards Law prior to July 1, 2005 were allowed to choose to be subject to the pension mechanism under the Act or continue to be subject to the pension mechanism under the Labor Standards Law. For those employees who were subject to the Labor Standards Law before July 1, 2005 and still work for the same company after July 1, 2005 and have chosen to be subject to the pension mechanism under the Act, their seniority as of July 1, 2005 shall be maintained. Employees who joined the Corporation after July 1, 2005 can only be subject to the pension mechanism under the Act.

The Act prescribes that the contribution by an employer to employees' pension accounts per month shall be in amount equal to not less than 6% of each employee's monthly salary. Pursuant to the Act, the Corporation has made monthly contributions to employees' pension accounts starting from July 1, 2005, and recognized pension costs of \$12,802 thousand for the year ended December 31, 2006.

The Corporation has a defined benefit plan under the Labor Standards Law that provides benefits based on an employee's length of service and average monthly salary for the six-month period prior to retirement. The Corporation contributes an amount equal to 2% of salaries paid each month to a pension fund (the Fund). The Fund is administered by the pension fund monitoring committee (the Committee) and deposited in the Committee's name in the Central Trust of China.

Information of Pension

Net periodic pension costs in the years ended December 31, 2006 and 2005 were as follows:

| | 2006 | 2005 |
|-------------------------------------|-----------------|-----------------|
| Service cost | \$ 1,884 | \$ 3,859 |
| Interest cost | 1,596 | 1,543 |
| Expected return on plan assets | (1,721) | (1,516) |
| Amortization of unrecognized losses | <u>377</u> | <u>557</u> |
| Net periodic pension cost | <u>\$ 2,136</u> | <u>\$ 4,443</u> |

Reconciliation of fund status of the plan and accrued pension cost was as follows:

| | 2006 | 2005 |
|---|-------------------|-------------------|
| Benefit obligations | | |
| Vested benefit obligation | \$ (4,633) | \$ (4,596) |
| Nonvested benefits | <u>(37,355)</u> | <u>(33,522)</u> |
| Accumulated benefit obligation | (41,988) | (38,118) |
| Effect of future salary increase | <u>(14,635)</u> | <u>(11,002)</u> |
| Projected benefit obligation | (56,623) | (49,120) |
| Plan assets at fair value | <u>55,989</u> | <u>50,429</u> |
| Plan assets in excess of projected benefit obligation (Projected benefit obligation in excess of plan assets) | (634) | 1,309 |
| Unrecognized net transition obligation | 634 | 972 |
| Unrecognized net losses | <u>10,048</u> | <u>5,666</u> |
| Accrued pension cost | <u>\$ 10,048</u> | <u>\$ 7,947</u> |
| Vested benefits | <u>\$ (5,421)</u> | <u>\$ (5,111)</u> |

Actuarial Assumptions

| | 2006 | 2005 |
|--|-------|-------|
| Discount rate used in determining present values | 2.75% | 3.25% |
| Future salary increase rate | 2.50% | 2.00% |
| Expected rate of return on plan assets | 2.75% | 3.25% |

Summary of changes in the pension fund is as follows:

| | 2006 | 2005 |
|---------------------|-----------------|-----------------|
| Contribution | <u>\$ 4,237</u> | <u>\$ 4,994</u> |
| Payment of benefits | <u>\$ -</u> | <u>\$ 2,197</u> |

16. STOCKHOLDERS' EQUITY

Capital Stock

The Corporation's authorized capital is \$3,000,000 thousand and \$2,600,000 thousand at December 31, 2006 and 2005 (\$10.00 par value per share). As of December 31, 2006, the Corporation's outstanding capital stock was \$2,056,983 thousand divided into 205,698 thousand shares at \$10.00 par value each. Capital stock consists of the following:

| | |
|--------------------------------------|--------------------|
| Initial cash subscription | \$ 3,100 |
| Additional cash subscription | 540,080 |
| Stock dividends from earnings | 1,109,049 |
| Stock dividends from capital surplus | 127,693 |
| Employee stock option | 65,840 |
| Convertible bonds | <u>211,221</u> |
| | <u>\$2,056,983</u> |

Employee Stock Options

The Corporation's employee stock option plans were issued in October 2001, April 2002 and October 2002; the maximum number of units authorized to be granted was 3,500, 1,500 and 4,000, respectively, with each unit eligible to subscribe to one thousand common shares when exercisable. The option may be granted to qualified employees of the Corporation or any of its domestic or foreign subsidiaries. The options of all the plans are valid for five years and exercisable at certain percentages subsequent to the second anniversary of the grant date. Under the terms of the plans, the options are granted at an exercise price equal to the closing price of the Corporation's common shares listed on the TSE on the grant date.

Information about outstanding stock options for the years ended December 31, 2006 and 2005 was as follows:

| | <u>2006</u> | | <u>2005</u> | |
|-------------------------------|--------------|--|----------------|--|
| | Units | Weighted Average Exercise Price | Units | Weighted Average Exercise Price |
| Employee Stock Options | | | | |
| Outstanding, beginning | 4,129 | \$ 17.0 | 7,935 | \$ 17.0 |
| Current issuance | - | - | - | - |
| Current exercise | (3,607) | 19.3 | (1,912) | 17.1 |
| Current cancel | <u>(192)</u> | - | <u>(1,894)</u> | - |
| Outstanding, ending | <u>330</u> | | <u>4,129</u> | |
| Exercisable options, ending | <u>330</u> | | <u>2,754</u> | |

As of December 31, 2006, information about outstanding and exercisable options was as follows:

| Range of Exercise Price (NT\$) | Options Outstanding | | | Options Exercisable | |
|--------------------------------|----------------------------------|--|--|----------------------------------|--|
| | Number of Options (In Thousands) | Weighted Average Remaining Contractual Life (In Years) | Weighted Average Exercise Price (NT\$) | Number of Options (In Thousands) | Weighted Average Exercise Price (NT\$) |
| \$17.00~\$13.1 | - | - | \$16.2 | - | \$13.1 |
| \$34.10~\$28.9 | 144 | 0.25 | 28.9 | 144 | 28.9 |
| \$17.60~\$14.4 | 186 | 0.82 | 16.4 | 186 | 14.4 |
| | <u>330</u> | | | <u>330</u> | |

No compensation cost was recognized under intrinsic value method for the years ended December 31, 2006 and 2005. The assumptions and pro forma results of the Corporation for the year ended December 31, 2006 would have been as follows:

Assumptions

| | |
|-------------------------|-------------|
| Expected dividend yield | - |
| Expected volatility | 46.75% |
| Risk free interest rate | 1.92% |
| Expected life | 3.875 years |

| | 2006 | 2005 |
|--|------------|------------|
| Net income | | |
| Net income as reported | \$ 842,241 | \$ 480,468 |
| Pro forma net income | 834,539 | 449,496 |
| Earnings per share (EPS) - after income tax (in dollars) | | |
| Basic EPS as reported | \$ 4.13 | \$ 2.73 |
| Pro forma basic EPS | \$ 4.11 | \$ 2.55 |
| Diluted EPS as reported | \$ 3.83 | \$ 2.64 |
| Pro forma diluted EPS | \$ 3.81 | \$ 2.47 |

Capital Surplus

Capital surplus can only be used to offset a deficit under the Corporation Law. However, the capital surplus generated from donations and the excess of the issue price over the par value of capital stock (including the stock issued for new capital, mergers, convertible bonds and the surplus from treasury stock transactions) may be appropriated as stock dividends, which is restricted to a certain percentage of the paid in common stock of the Corporation. Capital surplus consisted of the following:

Capital

| | December 31 | |
|----------------------------|-------------------|-------------------|
| | 2006 | 2005 |
| Additional paid-in capital | \$ 290,248 | \$ 290,248 |
| Employee stock option | 54,449 | 20,939 |
| Convertible bonds | 188,779 | 180,213 |
| Warrants | 39,680 | - |
| | <u>\$ 573,156</u> | <u>\$ 491,400</u> |

Earnings Distribution and Dividend Policy

Based on the Company Law and the Corporation's Articles of Incorporation, from annual net income less any prior years' deficit, 10% should be appropriated as legal reserve. The remaining amount may be fully or partially distributed for dividends, with the stockholders' approval, according to the following percentages:

- (a) Employee bonus - 3% to 15%
- (b) Directors and supervisors' remuneration - 2%

Stock bonuses to employees include subsidiary employees who meet certain criteria set by the board of directors.

Dividends are recommended by the board of directors in accordance with the Corporation's dividend policy. Under this policy, industry trend and growth should be evaluated, investment opportunities should be fully understood, and proper capital adequacy ratios should be considered in determining the dividend to be distributed. In addition, cash dividends should not be less than 20% of the total dividends to be appropriated.

A special capital reserve equivalent to the net debit balance of the components of stockholders' equity (for example, unrealized loss on long-term investments and cumulative translation adjustments, but excluding treasury stock) should be allocated from unappropriated earnings under the regulations promulgated by the ROC Securities and Futures Bureau (SFB), formerly known as the Securities and Futures Commission before July 1, 2004. Any special reserve appropriated may be reversed to the extent of reversed debit balance.

Legal reserve should be appropriated until its amount equals the Corporation's paid-in capital. It can be used to offset deficit. When legal reserve reaches 50% of paid-in capital, up to one half of this reserve may be transferred to capital stock.

Under the Integrated Income Tax System that became effective on January 1, 1998, the ROC resident shareholders are allowed a tax credit for their proportionate share of the income tax paid by the Corporation on earnings generated since January 1, 1998.

The appropriation of the 2005 and 2004 earnings was approved in the stockholders' meeting on June 15, 2006 and June 13, 2005, respectively. The appropriations and dividends per share are as follows:

| | <u>Appropriation of Earnings</u> | | <u>Dividends Per Share (NT\$)</u> | |
|--|----------------------------------|-----------------------------|-----------------------------------|-----------------------------|
| | <u>For Fiscal Year 2005</u> | <u>For Fiscal Year 2004</u> | <u>For Fiscal Year 2005</u> | <u>For Fiscal Year 2004</u> |
| Legal reserve | \$ 48,047 | \$ 25,815 | \$ - | \$ - |
| Cash dividends | 188,909 | 82,404 | 1.0 | 0.50 |
| Stock dividends | 113,345 | 82,405 | 0.6 | 0.50 |
| Employees' bonus - stock | 34,347 | 18,728 | - | - |
| Remuneration to directors and supervisors - cash | 6,869 | 3,746 | - | - |

The amounts of the above appropriations of earnings for 2005 and 2004 are consistent with the resolutions of the meetings of the Board of Directors. However, the Company Law prescribes that TXC Corporation, as a holder of treasury stock, shall not participate in the appropriation of earnings. Therefore, the actual cash dividend per share and stock dividend per share are slightly more than those in the aforementioned resolutions. If the above bonus to employees, directors and supervisors had been paid entirely in cash and charged against earnings for 2004 and 2003, the after income tax basic earnings per share for the years ended

December 31, 2005 and 2004 would have decreased from NT\$2.73 to NT\$2.50 and NT\$1.63 to NT\$1.49, respectively. The shares distributed as bonus to employees represented 1.84% and 1.16% of the Corporation's total outstanding common shares as of December 31, 2005 and 2004, respectively.

As of March 5, 2007, the board of directors of TXC Corporation has not resolved the appropriation of 2005 earnings. The information on the earnings appropriation can be accessed online through the Market Observation Post system (MOPS) on the Web site of the Taiwan Stock Exchange (<http://emops.tse.com.tw>).

17. INCOME TAX

The reconciliation of imputed income tax on pretax income at statutory tax rate to income tax expense was as follows:

| | <u>Years Ended December 31</u> | |
|--|--------------------------------|------------------|
| | <u>2006</u> | <u>2005</u> |
| Tax on pretax income at statutory rate | \$ 251,755 | \$ 140,618 |
| Add (deduct) tax effects of | | |
| Permanent differences | 96 | 444 |
| Temporary differences | (25,326) | (15,158) |
| Tax-exempt income for five years | <u>(74,355)</u> | <u>(15,695)</u> |
| | 152,170 | 110,209 |
| Income tax (10%) on undistributed earnings | 8,895 | - |
| Less investment tax credit | <u>(84,759)</u> | <u>(59,537)</u> |
| Current tax credit | <u>\$ 76,306</u> | <u>\$ 50,672</u> |

Income tax expense consisted of the following:

| | <u>Years Ended December 31</u> | |
|----------------------------------|--------------------------------|------------------|
| | <u>2006</u> | <u>2005</u> |
| Current tax expense | \$ 76,306 | \$ 50,672 |
| Prior year's adjustment | 896 | (40) |
| Deferred tax expenses (benefits) | | |
| Temporary difference | 24,893 | 15,366 |
| Investment tax credits | <u>(1,736)</u> | <u>(16,376)</u> |
| Income tax expense | <u>\$ 100,359</u> | <u>\$ 49,622</u> |

Changes of income tax payable:

| | <u>December 31</u> | |
|--|--------------------|------------------|
| | <u>2006</u> | <u>2005</u> |
| Balance, beginning of year | \$ 30,437 | \$ 30,855 |
| Accrued income tax this year | 76,306 | 50,672 |
| Current payment | (33,183) | (51,050) |
| Adjustment of prior years' tax expense | <u>896</u> | <u>(40)</u> |
| Balance, end of year | <u>\$ 74,456</u> | <u>\$ 30,437</u> |

Deferred income tax assets and liabilities as of December 31, 2006 and 2005 were as follows:

| | 2006 | 2005 |
|--|------------------|------------------|
| Deferred income tax assets, current | | |
| Investment tax credit | \$ 31,124 | \$ 32,912 |
| Loss on decline in value of inventories | 7,207 | 4,180 |
| Unrealized foreign exchange loss | 2,739 | 1,737 |
| Impairment loss | - | 2,172 |
| Others | <u>2,120</u> | <u>402</u> |
| | <u>43,190</u> | <u>41,403</u> |
| Deferred income tax liabilities, current | | |
| Unrealized foreign exchange gain | <u>(1,960)</u> | <u>(5,639)</u> |
| Net deferred income tax assets, current | <u>\$ 41,230</u> | <u>\$ 35,764</u> |
| Deferred income tax assets, noncurrent | | |
| Investment tax credit | \$ 93,372 | \$ 92,070 |
| Impairment loss | 2,467 | - |
| Unrealized valuation loss on financial instruments | 4,736 | - |
| Others | <u>331</u> | <u>331</u> |
| | <u>100,906</u> | <u>92,401</u> |
| Deferred income tax liabilities, noncurrent | | |
| Investment income | <u>(48,512)</u> | <u>(17,140)</u> |
| Net deferred income tax assets, noncurrent | <u>\$ 52,394</u> | <u>\$ 75,261</u> |

The Corporation's investment tax credits as of December 31, 2006 for income tax purposes were as follows:

| Regulatory Basis of Tax Credits | Item | Total Creditable Amount | Remaining Creditable Amount | Expiry Year |
|--|--|--|--|------------------------|
| Statute for Upgrading Industries | Purchase of machinery and equipment | \$ 77,341 | \$ 48,523 | 2010 |
| | Research and development expenditures | 119,890 | 74,606 | 2010 |
| | Personnel training | <u>1,721</u> | <u>\$ 1,367</u> | 2010 |
| | | <u>\$ 198,952</u> | <u>\$ 124,496</u> | |
| Purchase of machinery and equipment | Purchase of machinery and equipment | <u>\$ 10,303</u> | <u>\$ -</u> | 2010 |

The sales generated from the following expansion and construction of the TXC Corporation's factories is exempt from income tax:

| | Tax-Exemption Period |
|----------------------------------|-----------------------------|
| Acquisition of equipment in 2003 | 2004 to 2008 |
| Acquisition of equipment in 2004 | 2005 to 2009 |

The TXC Corporation's income tax returns up to 2002 have been examined and approved by the tax authorities.

According to the amended Income Tax Law, unappropriated earnings are subject to 10% tax. The 10% tax will be used as a reduction of the shareholders income tax expense in the year when dividends are distributed. The information of imputation credit accounts (“ICA”) were as follows:

| | <u>December 31</u> | |
|----------------------------|----------------------------|--------------------------|
| | <u>2006</u> | <u>2005</u> |
| Balance of ICA | <u>\$ 15,370</u> | <u>\$ 26,069</u> |
| | 2006 (Estimate) | 2005 (Actual) |
| Imputation tax credit rate | 9.18% | 10.88% |
| | <u>December 31</u> | |
| | <u>2006</u> | <u>2005</u> |
| Undistributed earnings | | |
| Until 1997 | \$ - | \$ - |
| From 1998 and thereafter | <u>978,720</u> | <u>493,909</u> |
| | <u>\$ 978,720</u> | <u>\$ 493,909</u> |

18. PERSONNEL, DEPRECIATION AND AMORTIZATION EXPENSES

The Corporation’s personnel, depreciation, and amortization expenses for the years ended December 31, 2006 and 2005 were summarized as follows:

| Function | Years Ended December 31 | | | | | |
|----------------------------|-----------------------------------|--|-----------|-----------------------------------|--|-----------|
| | 2006 | | | 2005 | | |
| | Classified as Cost of Sales | Classified as Operating Expenses | Total | Classified as Cost of Sales | Classified as Operating Expenses | Total |
| Labor cost | | | | | | |
| Salary | \$314,250 | \$182,360 | \$496,610 | \$253,834 | \$128,303 | \$382,137 |
| Labor and health insurance | 20,060 | 10,230 | 30,290 | 16,012 | 8,639 | 24,651 |
| Pension | 10,941 | 6,693 | 17,634 | 7,107 | 3,375 | 10,482 |
| Meals | 11,567 | 5,864 | 17,431 | 9,634 | 5,206 | 14,840 |

20. DISCLOSURES FOR FINANCIAL INSTRUMENTS

Fair values of assets and liabilities were as follows:

| | December 31 | | | |
|--|-------------|----------------------|------------|----------------------|
| | 2006 | | 2005 | |
| | Book Value | Estimated Fair Value | Book Value | Estimated Fair Value |
| Assets | | | | |
| Cash and cash equivalents | \$ 900,426 | \$ 900,426 | \$ 259,332 | \$ 259,332 |
| Available-for-sale financial assets, current | 150,183 | 150,183 | 60,000 | 60,004 |
| Notes and accounts receivable, net | 1,846,090 | 1,846,090 | 1,389,427 | 1,389,427 |
| Financial assets carried at cost | 3,000 | 3,000 | 3,000 | 3,000 |
| Liabilities | | | | |
| Short-term loans | 343,262 | 343,262 | 353,738 | 353,738 |
| Notes and accounts payable | 810,397 | 810,397 | 633,983 | 633,983 |
| Accrued expense | 179,929 | 179,929 | 147,524 | 147,524 |
| Bonds payable | 763,311 | 763,311 | 20,499 | 20,499 |
| Long-term loans (including current portion) | 430,876 | 430,876 | 540,320 | 540,320 |
| Derivative financial instruments | | | | |
| Interest rate swap contract | | | | |
| Taiwan | (18,944) | (18,944) | - | - |
| Forward contract | | | | |
| Taiwan | (1,744) | (1,744) | - | - |
| Foreign country | 163 | 163 | - | - |

Methods and assumptions used in the determination of fair values of financial instruments were as follows:

- (a) The fair values of short-term financial instruments such as cash and cash equivalents, receivables, payables and short-term loans are based on their carrying amounts because of their short maturities. The carrying amounts of these financial instruments approximate their fair values.
- (b) Fair values of available-for-sale financial assets were based on their quoted market price on the balance sheet date.
- (c) Fair values of derivatives were determined using valuation techniques incorporating estimates and assumptions that were consistent with prevailing market conditions.
- (d) Because there is no active market and a reliable fair value could only be verified at a more than reasonable cost, the fair values of investments in unlisted stocks carried at cost or accounted for using equity method can not be estimated.
- (e) The fair value of the long-term loans and bonds payable was determined using the discounted value of expected cash flows, which approximates their carrying amount.

Fair value of assets and liabilities based on:

| | Quoted Market Price | | Valuation Techniques Incorporating Estimates and Assumptions | |
|---|---------------------|--------|--|------------|
| | December 31 | | December 31 | |
| | 2006 | 2005 | 2006 | 2005 |
| Assets | | | | |
| Cash and cash equivalents | \$ - | \$ - | \$ 900,426 | \$ 259,332 |
| Financial assets at fair value through profit or loss, current | - | - | 163 | - |
| Notes and accounts receivable, net | - | - | 1,846,090 | 1,389,427 |
| Available-for-sale financial assets, current | 150,183 | 60,000 | - | - |
| Financial assets carried at cost | - | - | 3,000 | 3,000 |
| Liabilities | | | | |
| Short-term loans | - | - | 343,262 | 353,738 |
| Notes and accounts payable | - | - | 810,397 | 633,983 |
| Accrued expenses | - | - | 179,929 | 147,524 |
| Financial liabilities at fair value through profit or loss, current | - | - | 1,744 | - |
| Bonds payable | - | - | 763,311 | 20,499 |
| Long-term loans (including current portion) | - | - | 430,876 | 540,320 |
| Financial liabilities at fair value through profit of loss, noncurrent | - | - | 18,944 | - |

Gain recognized from the changes in fair value of derivatives estimated using valuation techniques was \$4,079 thousand for the year ended December 31, 2006.

As of December 31, 2006, financial liabilities exposed to cash flow interest rate risk were \$18,944 thousand.

Information about financial risks was as follows:

- (a) Market risk: The Corporation's market risk refers to the uncertainties due to exchange rate fluctuations. Gains or losses on forward exchange contracts are likely to offset the gains or losses on foreign-currency assets or liabilities. Interest rate risk refers to the risk arising from interest rate fluctuations in the market. The Corporation does not have significant price risk.
- (b) Credit risk: Credit risk represents the potential loss that would be incurred by the Corporation if the counter-parties or third-parties breached the contracts. Contracts with positive fair values at the balance sheet date are evaluated for credit risk. The counter-parties or third-parties to the foregoing derivative financial instruments are reputable financial institutions, business organizations, and government agencies. Management believes its exposure to default by those parties is low.
- (c) Liquidity risk: The Corporation has sufficient operating capital to meet cash needs upon settlements of derivative financial instruments. Therefore, the cash flow risk is low.

21. RELATED-PARTY TRANSACTIONS

The related parties were as follows:

| Related Party | Relationship with the Corporation |
|---|---|
| Tai-Shing Electronics Components Corporation (Tai-Shing) | Chairman is the Corporation's general manager |

Major transactions with related parties were summarized below:

Sales

| | Years Ended December 31 | | | |
|-----------|-------------------------|-----------------------------------|------------------|-----------------------------------|
| | 2006 | | 2005 | |
| | Amount | % to Total Account Balances | Amount | % to Total Account Balances |
| Tai-Shing | <u>\$ 19,997</u> | <u>-</u> | <u>\$ 21,226</u> | <u>1</u> |

Selling prices to related parties were similar to those for third parties.

Other Expenses

| | Years Ended December 31 | | | |
|-----------|-------------------------|-----------------------------------|-----------------|-----------------------------------|
| | 2006 | | 2005 | |
| | Amount | % to Total Account Balances | Amount | % to Total Account Balances |
| Tai-Shing | <u>\$ 5,805</u> | <u>1</u> | <u>\$ 4,229</u> | <u>3</u> |

Receivable from and Payable to Related Parties

| Item | Related Party | December 31 | | | |
|---------------------|---------------|-------------|-----------------------------|----------|-----------------------------|
| | | 2006 | | 2005 | |
| | | Amount | % to Total Account Balances | Amount | % to Total Account Balances |
| Accounts receivable | Tai-Shing | \$ 6,554 | - | \$ 9,070 | - |
| Notes payable | Tai-Shing | \$ 701 | 1 | \$ 264 | - |
| Accounts payable | Tai-Shing | \$ 401 | - | \$ 183 | - |
| Accrued expense | Tai-Shing | \$ - | - | \$ 273 | - |

22. PLEDGED ASSETS

As of December 31, 2006 and 2005, the following assets had been pledged at their book values to secure short-term loans, long-term debts and commercial paper issued:

| | 2006 | 2005 |
|--------------------------------|------------------|------------------|
| Property, plant and equipment | | |
| Land | \$ 165,994 | \$ 165,994 |
| Buildings, net | 234,041 | 239,946 |
| Machinery and equipment, net | 529,476 | 507,492 |
| Restricted deposit | 50 | - |
| Intangible assets - land right | 15,786 | 15,734 |
| | <u>\$945,347</u> | <u>\$929,166</u> |

23. COMMITMENT AND CONTINGENCIES

The Corporation's commitments and contingencies as of December 31, 2006, which were not shown in the financial statements, were as follows:

Unit: In Thousands

| Commitment | Contract Price | Paid Up | Not Yet Paid |
|-----------------------|----------------|-----------|--------------|
| Building construction | \$282,600 | \$206,735 | \$75,865 |

Guarantee for short-term loan and long-term loan is described in Note 14.

Guarantee for customs tax amounted to about \$15,000 thousand.

Unused letters of credit were JP¥255,324 thousand.

As of December 31, 2005, the Corporation had derivative financial instruments. Please refer to Note 20.

24. SEGMENT, GEOGRAPHIC AREA, EXPORT SALES AND MAJOR CUSTOMER INFORMATION

Segment Information

No segment information.
